This Key Information Memorandum (KIM) sets forth the information which a prospective investor ought to know before investing. **For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.growwmf.in.**

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated June 26, 2024

Investment Objective	The investment objective of the Scheme is to generate long term capital growth by investing in securities of the Nifty Non-Cyclical Consumer Index (TRI) in the same proportion / weightage with an aim to provide returns before expenses that track the total return of Nifty Non-Cyclical Consumer Index, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the scheme will be achieved.	
Asset Allocation Pattern of the scheme	Types of Instruments	Normal Allocation (% of Net Assets)
	Equities & Equity-related securities of companies engaged in or expected to benefit from consumption and consumption-related activities	95% to 100%
	Debt & Money Market Instruments / and Units of debt schemes# / Units of Debt ETFs*	00% to 05 %
	<p>or similar instruments as may be permitted by RBI/ SEBI, subject to requisite approvals from SEBI / RBI, if needed. The Scheme may take an exposure to equity derivatives of constituents of the underlying index for short duration when securities of the Index are unavailable, insufficient or for rebalancing at the time of change in Index or in case of corporate actions or for hedging purposes, as permitted by SEBI/RBI. The Exposure to derivative instruments shall not exceed 50% of the total Net Assets of Scheme. The Fund shall not write options or purchase instruments with embedded written options. When constituent's securities of underlying Index are available again, derivative positions in these securities would be unwound. Subject to the SEBI Regulations as applicable from time to time, the Scheme may, if the Trustees permit, participate in securities lending. The maximum exposure of the Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 50% of the market value of its equity portfolio or up to such limits as may be specified by SEBI. The Scheme will not lend more than 75% of its corpus. The cumulative gross exposure through equity, debt, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time will not exceed 100% of the net assets of the scheme, subject to approval if any.</p> <p>The Asset Allocation portion shall also include subscription and redemption cash flow which may be undeployed due to various reasons (dividend from underlying securities, rebalancing or balances for running cost of the scheme, residual amount due to execution on rounding off etc). Subject to the SEBI Regulations as applicable from time to time</p> <p>#Money Market instruments includes commercial papers, commercial bills, treasury bills, Government securities, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time.</p> <p>The scheme may invest upto 5% of net assets in Liquid & Overnight scheme of the Groww Mutual Fund or any other Mutual Fund without charging any fees, provided that aggregate inter scheme investment made by all schemes under the management of Groww Asset Management Limited or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of Groww Mutual Fund</p> <p>As per SEBI Letter dated 3rd November 2021 Cash and cash equivalents having residual maturity of less than 91 Days are not considered for the purpose of</p>	

calculating gross exposure limit.

The Scheme shall adhere to the following limits should it engage in Stock Lending.

- (a) Not more than 20% of the net assets can generally be deployed in Stock Lending
- (b) Not more than 5% of the net assets can generally be deployed in Stock Lending to any single approved intermediary i.e. broker.

The Scheme will not participate in Credit Default Swaps (CDS) for Corporate Bonds.

The Scheme will not invest in:

- a. debt instruments with special features viz. subordination to equity (absorbs losses before equity capital) and /or convertible to equity upon trigger of a pre-specified event for loss absorption including Additional Tier I bonds and Tier 2 bonds issued under Basel III framework.
- b. debt instruments having Structured Obligations / Credit Enhancements.

Exposure to equity derivatives of the index itself or its constituent stocks may be undertaken when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period which shall not exceed 7 days. The exposure to derivatives will be rebalanced to align with the underlying index changes in weights or constituents. The notional exposure of the Scheme in Derivative instruments shall be restricted to 50% of the net assets of the Scheme. This will also include various derivative and hedging products to reduce the risk of the portfolio, in the manner permitted by SEBI from time to time. Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. It can help in reducing the Tracking Error in the Scheme. Index futures/options may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the individual stocks. Index futures/options can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares comprising the underlying index and will be easy to settle compared to a physical portfolio of shares representing the underlying index. In case of investments in index futures/options, the risk/reward would be the same as investments in a portfolio of shares representing an index. However, there may be a cost attached to buying an index future/option.

The cumulative gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.

Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the Regulations from time to time). Further, the Scheme may for meeting liquidity requirements invest in Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed among others, as permitted by regulation.

Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of paragraph 12.16 of SEBI Master circular for Mutual Funds dated May 19, 2023 . Further, the Scheme may for meeting liquidity requirements invest in units of money market/liquid schemes of

Groww Mutual Fund and/or any other mutual fund provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund. The AMC shall not charge any investment management fees with respect to such investment. In case of any deviation from the above asset allocation, the portfolio shall be rebalanced within 7 Days to ensure adherence to the above norms. In the event of involuntary corporate action, the Scheme shall dispose of the security not forming part of the underlying index within 7 Days from the date of allotment/ listing. In case of change in constituents of the index due to periodic review, the portfolio of the scheme shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Change in Asset Allocation Pattern

The Scheme in general, will hold all the securities that constitute the underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances such tracking error is not expected to exceed 2% p.a for daily 12 month rolling return. However, in case of events like, IDCW received from underlying securities, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Index, etc. or in

	<p>abnormal market circumstances, the tracking error may exceed the above limits. Since the Scheme is an index fund, it will endeavour that at no point of time the Scheme will deviate from the index.</p> <p>Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders.</p>
<p>Investment Strategy</p>	<p>The Scheme will be managed passively with investments in stocks in a proportion to the weights of these stocks in the Nifty Non-Cyclical Consumer Index Fund - TRI. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing of the portfolio, considering the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme.</p> <p>The designated Fund manager of the scheme will be responsible for taking the day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.</p> <p>The Scheme shall be benchmarked to Nifty Non-Cyclical Consumer Index Fund - TRI.</p> <p>Since the scheme is an index fund, the compositions of the benchmark are such that it is most suited for comparing performance of the Scheme.</p> <p>A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.</p> <p>The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme.</p> <p>The Scheme may invest in other Scheme managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments and the aggregate inter-Scheme investment made by all Schemes of Groww Mutual Fund or in the Schemes under the management of other asset management companies shall not exceed 5% of the net asset value of the Groww Mutual Fund. The limit however does not apply to any Fund of Funds scheme. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations.</p> <p>Portfolio Turnover</p> <p>Portfolio turnover in the scheme will be a function of market opportunities. It is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavour to optimize portfolio turnover to optimize risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of investment opportunities that exist in the market.</p>

	<p>Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty Non-Cyclical Consumer Index Fund -TRI. However, it will be the endeavour of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.</p>
