Any alteration in the investment pattern will be for a short term on defensive considerations as per Para 1.14.1.2 of SEBI Master Circular dated June 27, 2024; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 calendar days. It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Investment Strategy

The scheme follows an active investment strategy.

The Scheme seeks to generate long term capital appreciation by investing in a diversified portfolio of equity, debt & money market instruments, Exchange Traded Commodity Derivatives / Units of Gold ETFs / Silver ETFs & units of REITs/InvITs.

The scheme seeks to benefit from the concept of asset allocation. The aim of asset allocation is to provide superior risk adjusted returns through diversification across various asset classes like equity, debt and money market instruments, Exchange Traded Commodity Derivatives / Units of Gold ETFs / Silver ETFs & units of REITs/InvITs which have historically had low correlation with each other.

The investment objective of the Scheme is to seek long-term capital appreciation by investing across diverse asset classes such as equity, debt, and commodities. The Scheme employs a systematic, rules-based investment approach supported by a proprietary framework/model named SHAASTRA (Strategic Holistic Asset Allocation and Systematic Technical Risk Assessment), utilizing inputs such as fundamental data, macroeconomic indicators, valuations, and asset price movements. Asset allocation decisions within the Scheme are guided by this structured framework, which dynamically incorporates a range of relevant inputs. SHAASTRA helps the Scheme in systematically identifying opportunities across varying market environments, maintaining flexibility in asset allocation. The SHAASTRA framework/model will continue to evolve over time; however, its underlying philosophy and thought process will remain consistent. The structured investment process provided by SHAASTRA facilitates an objective assessment and consistent decision-making process, minimizing behavioral biases. By analyzing market data, economic cycles, and asset-specific

	information, SHAASTRA aids in proactively identifying trends and potential risks, allowing dynamic adjustments in exposures to equity, debt, and commodities. Although the investment strategy is predominantly driven by the structured data-driven framework provided by SHAASTRA, the final investment decisions are made by the Fund Manager. The Fund Manager retains the discretion to interpret the data contextually and adjust allocations in line with the Scheme's objectives, prevailing market conditions, and anticipated future developments to best serve the interest of investors. This integrated approach is designed to offer flexibility and adaptability to changing economic scenarios, aiming to optimize returns across market cycles. (Detailed definition and applicable regulations/guidelines for each instrument is included in Section II) Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. For detailed derivative strategies, please refer to SAI. Portfolio Turnover Policy Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. Portfolio turnover in the scheme will be a function of market opportunities. The scheme is open-end scheme. It is expected that there would be a number of subscriptions and repurchases on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for securities held in the portfolio rather than an indication of change in AMC's view on a security etc. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets.

INSTRUCTIONS TO HELP YOU COMPLETE THE MAIN APPLICATION FORM

after that date. SEBI also issued KYC Registration Agency ("KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV").

All investors (individual and non- individual) are required for KYC compliance. However, applications should note that minors cannot apply for KYC compliance and any investment in the Name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Also applicants/ unit holders intending, to apply for units currently holding units and operating their Mutual Fund folios through a Power of Attorney (PoA) must ensure that the issue of PoA and the holder of the PoA must mention their KYC compliance status at the time of investment. PoA holders are not permitted to apply for KYC compliance on behalf of the issuer of the PoA, Separate procedures are prescribed for change in name, address, and other KYC related details, should the applicant desire to change such information, POS will extend the services of effecting such changes. In line with the SEBI circular No. MIRSD/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the Investors are requested to note the following additional provisions shall be applicable for "KYC Compliances" with effect from December 1, 2012:

1) In case of an existing investor of GMF and who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on subsequent Purchase/ Additional Purchase (or ongoing SIPs/STPs,etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder can also open a new folio with Groww Mutual Fund with the erstwhile centralized KYC

2) In case of an existing investor of Groww Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website www.cvlkra.com along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase / new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would a onetime submission of documentation.

Updation of 'missing / not available' KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. Once the same is done then the KYC status at CVL KRA will change to 'Verified by CVL KRA' after due verification. In such a scenario, where the KYC status changes to 'Verified by CVL KRA', investors need not submit the 'missing/not available' KYC information to mutual funds again.

Individual Investors are required to submit 'KYC Details Change Form' issued by CVL-KRA available on their website www.cvlkra.com.

In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.

B. Paragraph to be inserted under section - “RISK FACTORS: SCHEME SPECIFIC RISK FACTORS”

Risk associated with Investments in REITs

- **Price-Risk or Interest-Rate Risk:** REITs run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. As these products are new to the market they are likely to be exposed to liquidity risk.
- **Reinvestment Risk:** Investments in REITs may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Risk of lower than expected distributions:** The distributions by the REIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT receives as dividends or the interest and principal payments from portfolio assets.

The above are some of the common risks associated with investments in REITs. There can be no assurance that investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

In accordance with the said Circular, the changes relating to the re-classification of REITs as “Equity related instruments” as made in Offer documents of the scheme(s) **shall not be considered as a Fundamental Attribute change.**

This Notice cum addendum forms an integral part of the SID and KIM of aforementioned scheme(s). All other terms and conditions as mentioned in SID and KIM of the scheme(s) of the Fund shall remain unchanged.
