**SECTION I**
**Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME**

<b>Sr. No.</b>	<b>Title</b>	<b>Description</b>
I.	<b>Name of the scheme</b>	Groww Dynamic Bond Fund
II.	<b>Category of the Scheme</b>	Dynamic Bond Fund
III.	<b>Scheme Type</b>	An open-ended dynamic debt scheme investing across duration. A relatively high interest rate risk and moderate credit risk.
IV.	<b>Scheme code</b>	INDB/O/D/DBF/18/05/0007
V.	<b>Investment objective</b>	To generate reasonable returns commensurate with the risk taken by active duration management of the portfolio. The Scheme would be investing in debt instruments including but not limited to bonds, debentures, government securities and money market instruments over various maturity periods. However, there can be no assurance that the investment objective of the scheme will be achieved. The Scheme(s) does not assure or guarantee any returns.
VI.	<b>Liquidity</b>  <b>Listing details</b>	<p>The Scheme offers Units for Subscription and Redemption at NAV based prices on all Business Days on an ongoing basis, commencing not later than 5 business days from the date of Allotment. Under normal circumstances the AMC shall dispatch the Redemption proceeds within 3 Working Days from date of receipt of request from the Unit holder.</p> <p>Since units of the Scheme will be offered for subscription and redemption at NAV based prices on all Business Days on an ongoing basis providing the required liquidity to investors, units of the Scheme are not proposed to be listed on any stock exchange. However, the Trustee reserves the right to list the units of the Scheme on any stock exchange(s) at its sole discretion at a later date.</p>
VII.	<b>Benchmark (Total Return Index)</b>	<p>As per AMFI Tier I benchmark: CRISIL Dynamic Bond A-III Index.</p> <p>The scheme intends to invest in a portfolio of instruments (debt and money market instruments) which is best captured in CRISIL Dynamic Bond A-III Index. This is a realistic estimate to track the returns of Groww Dynamic Bond Fund at a particular risk level.</p> <p>The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.</p>
VIII.	<b>NAV disclosure</b>	The AMC will calculate the NAVs for all the Business Days. The Asset Management Company (“AMC”) shall update the NAVs on the website of Association of Mutual Funds in India (“AMFI”) ( <a href="http://www.amfiindia.com">www.amfiindia.com</a> ) by 11.00 p.m. every Business Day. The NAV shall also be available on AMC website ( <a href="https://www.growwmf.in/nav">https://www.growwmf.in/nav</a> ). If the NAVs are not available before the commencement of business hours on the following day due to any reason, the

		<p>Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.</p> <p>Further Details in Section II.</p>
IX.	<b>Applicable timelines</b>	<p><b><u>Dispatch of redemption proceeds:</u></b>          Dispatch of redemption proceeds shall be completed within a period of 03 working days from the date of receipt of redemption request.</p> <p><b><u>Dispatch of IDCW</u></b>          IDCW warrants shall be dispatched to the unitholders within 07 working days from the record date</p>
X.	<b>Plans and Options Plans/Options and sub options under the Scheme</b>	<p>The Scheme offers following two Plans for investment into the Scheme:</p> <p><b>A. Direct :</b> This Plan is suitable for investors who wish to invest directly in the scheme without routing their investment through any distributor. Direct shall have a lower expense ratio compared to Regular and no commission shall be paid out of the Direct.</p> <p><b>B. Regular :</b> This Plan is suitable for investors who wish to invest in the Scheme through any distributor. This Plan shall have a higher expense ratio compared to the Direct and distributor commission may be paid out of this Plan.</p> <p>Direct and Regular shall have separate NAVs. However, there will be a common portfolio for both Plans. The various options available under Direct and Regular and the salient features common to both plans are given below:</p> <p><b>Options:</b> The Scheme has the following Options across a common portfolio:</p> <p><input type="checkbox"/> <b><u>Growth Option:</u></b> This option is suitable for investors who are not looking for current income but who invest only with the intention of capital appreciation. However, there can be no assurance of the capital appreciation.</p> <p><input type="checkbox"/> <b><u>IDCW Option:</u></b> This option is suitable for investors seeking income through IDCW declared by the Scheme. Under this Option, the Scheme will endeavour to declare dividends from time to time. The IDCW shall be dependent on the availability of distributable surplus.</p> <ul style="list-style-type: none"> <li>• Groww Dynamic Bond Fund - Direct Plan- - IDCW Option (Reinvestment)</li> <li>• Groww Dynamic Bond Fund - Direct Plan- Weekly IDCW Option (Payout &amp; Reinvestment)</li> <li>• Groww Dynamic Bond Fund - Direct Plan- Fortnightly IDCW Option (Payout &amp; Reinvestment)</li> <li>• Groww Dynamic Bond Fund - Direct Plan- Monthly IDCW Option (Payout &amp; Reinvestment)</li> <li>• Groww Dynamic Bond Fund - Regular Plan- - IDCW Option (Reinvestment)</li> <li>• Groww Dynamic Bond Fund - IDCW Sweep Facility (available for weekly, fortnightly and monthly frequency)</li> </ul> <p>In cases where the investor fails to opt for a particular Plan at the time of investment, the default Plan will be Direct.</p>

In cases where the investor fails to opt for a particular Option at the time of investment, the default Option will be Growth. If the investor chooses IDCW Option and fails to mention facility, then the default facility will be Monthly Reinvestment.

If Dividend payable under IDCW Payout option is equal to or less than Rs. 250/- then the Dividend would be compulsorily reinvested in the option of the Scheme.

- Groww Dynamic Bond Fund - Regular Plan- Weekly IDCW Option (Payout & Reinvestment)
- Groww Dynamic Bond Fund - Regular Plan- Fortnightly IDCW Option (Payout & Reinvestment)
- Groww Dynamic Bond Fund - Regular Plan- Monthly IDCW Option (Payout & Reinvestment)

The IDCW option has the following facilities:

In accordance with the requirement of regulation 43A of SEBI (Mutual Funds) Regulations, 1996 read with Chapter 16A of SEBI Master Circular for Mutual Fund pertaining to Investment by Mutual Fund Schemes and AMCs in units of Corporate Debt Market Development Fund, the Scheme shall invest 25 bps of its Assets Under Management (AUM) in CDMDF. The Scheme shall provide additional incremental contribution to CDMDF, in case the AUM increases, every six months to ensure 25 bps of the Scheme AUM is invested in units of CDMDF. However, if AUM decreases there shall be no return or redemption from CDMDF. Further, the aforesaid Half-yearly contributions shall be made within 10 working days from end of each half year, failing which the AMC shall be liable to pay interest at fifteen percent (15%) per annum for the period of delay. Further, the Investment in units of CDMDF shall be excluded from base of net assets or calculation of asset allocation limits of the Scheme. Further, the contributions made to CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the CDMDF. The investment in units of CDMDF shall be excluded from the calculations of Riskometer, Stress testing and Duration.

## **Changes in Asset Allocation Pattern**

### **Rebalancing due to passive breach**

Further, as per para 2.9 of SEBI Master Circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9. of SEBI Master Circular dated June 27, 2024.

### **Rebalancing of deviation due to short term defensive consideration**

Any alteration in the investment pattern will be for a short term on defensive considerations as per SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 business days. It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

## **B. WHERE WILL THE SCHEME INVEST?**

- (i) Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:
1. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
  2. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
  3. Debt securities issued by domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee
  4. Corporate debt securities (of both public and private sector undertakings)
  5. Securities issued by banks (both public and private sector) as permitted by SEBI from time to time and development financial institutions
  6. Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in any alternative investment as may be provided by the RBI to meet the liquidity requirements.
  7. Certificate of Deposits (CDs)
  8. Commercial Paper (CPs)
  9. The non-convertible part of convertible securities
  10. Any other domestic fixed income securities
  11. Derivative instruments like Interest Rate Swaps, Forward Rate Agreements, Stock Futures, Index Futures, Stock options & Index options and such other derivative instruments permitted by SEBI.
  12. The Fund may also enter into Repo & Reverse Repo of corporate debt securities, hedging or such other transactions as may be allowed to Mutual Funds from time to time.
  13. Subject to the Regulations, the securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of varying maturity. The securities may be acquired through New Fund Offerings (NFOs), secondary market operations, private placement, rights offers (including renunciation) or negotiated deals.

### C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme seeks to maximize risk adjusted returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up.

#### Debt Investment Strategy:

The Fund Manager would seek to enhance returns by trading on the shape of the yield curve in the short to medium time frame and also on the differentiated premia offered by the market to different issuers of debt. For example the spread between a similar maturity instrument issued by a bank, a NBFC and a manufacturing concern can vary from 100 bps to 500 bps. But it has to be understood that there would be a trade off in terms of their respective liquidity. As the Funds objective to maximize returns without compromising on safety and liquidity, the portfolio would be constructed with a judicious mix of instruments issued by the universe of eligible issuers across the spectrum. Portfolio maturity is determined after analyzing the macroeconomic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.

The Investment Strategy would be a combination of Top Down and Bottom Up approach for investments. The Top Down approach would entail:

- 1) Study of the current state of the economy
- 2) Study of the current inflationary trends in the economy and the resultant effect on yields and interest rate movement in the debt market
- 3) Study of the liquidity flows in the system

These studies would help the Fund Manager determining the duration call one has to take during portfolio construction.

The Bottom up approach would entail:

- 1) Along with above mentioned top-down approach, we would also adopt a bottom-up approach for identifying investment opportunities in individual companies
- 2) Management evaluation, corporate governance, industry analysis, business analysis, past track record, future plans, projections, expected returns and valuations would be some of the key points while choosing a company.

Based on the above approaches, a Debt Investment Universe would be constructed. This would be the base for portfolio construction. Sovereign Debt i.e. Central Govt. Securities and State Govt. Securities would also be part of the investment universe. Investment in them would take place in accordance to the schemes objectives.

As a result, the Fund stands to expose to market risk which can get captured partially by “mark to market component” thereby inducing a potential daily volatility. Also, the Fund might have a mix of credits with a moderately higher credit risk. The Fund will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.

#### Debt Derivatives Strategy:

The Scheme may use Derivative instruments like interest rate swaps like Overnight Indexed Swaps (“OIS”), forward rate agreements, interest rate futures (as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations. Derivatives will be used for the purpose of hedging, and portfolio balancing or such other purpose as may be permitted under the regulations and Guidelines from time to time.

The Fund will be allowed to take exposure in interest rate swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio. In terms of Circular No. MFD.BC.191/07.01.279/1999-2000 and MPD.BC.187/07.01.279/1999- 2000 dated November 1, 1999 and July 7, 1999 respectively issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Fund will use Derivative instruments for the purpose of hedging and portfolio balancing.

The Fund may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund.

IRS and FRA do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant Regulations / guidelines. Presently Derivatives shall be used for hedging and / or portfolio balancing purposes, as permitted under the Regulations. The circumstances under which such transactions would be entered into would be when, for example using the IRS route it is possible to generate better returns / meet the objective of the Scheme at a lower cost. E.g. if buying a 2 Yr Mibor based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate, the Scheme would endeavor to do that. Alternatively, the Scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

The following information provides a basic idea as to the nature of the Derivative instruments proposed to be used by the Fund and the benefits and risks attached therewith. Please note that the examples have been given for illustration purposes only.

#### **Using Overnight Indexed Swaps:**

In a rising interest rate scenario, the Scheme may enhance returns for the Investor by hedging the risk on its fixed interest paying assets by entering into an OIS contract where the Scheme agrees to pay a fixed interest rate on a specified notional amount, for a predetermined tenor and receives floating interest rate payments on the same notional amount. The fixed returns from the Scheme assets and the fixed interest payments to be made by the Scheme on account of the OIS transaction offset each other and the Scheme benefits on the floating interest payments that it receives. The Scheme may enter into an opposite position in case of a falling interest rate scenario, i.e. to hedge the floating rate assets in its portfolio the Scheme enters into an OIS transaction wherein it receives a fixed interest rate on a specified notional amount for a specified time period and pays a floating interest rate on the same notional amount. The floating interest payments that the Scheme receives on its floating rate securities and the floating interest payments that the Scheme has to pay on account of the OIS transaction offset each other and the Scheme benefits on the fixed interest payments that it receives in such a scenario.

**Swap:** Assume that the Scheme has a Rs. 20 Crores floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will receive a fixed predetermined rate (assume 12%) and pays the “benchmark rate” (MIBOR), which is fixed by the NSE (“National Stock Exchange of India Limited”) or any other agency such as Reuters. This swap would effectively lock-in the rate of 12% for the next 6 months, eliminating the daily interest rate risk. This transaction is usually routed through an intermediary who runs a book and matches deals between various counterparties. The steps will be as follows: Assuming the swap is for Rs. 20 Crores for August 1, 2011 to February 1, 2012. The Scheme is a fixed rate receiver at 12% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say NSE MIBOR).

On September 1, 2011 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (“ISDA”) norms.

On a daily basis, the benchmark rate fixed by NSE will be tracked by them.

On February 1, 2012 they will calculate the following:

- The Scheme is entitled to receive interest on Rs. 20 Crores at 12% for 184 days i.e. Rs. 1.21 Crores, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate.
- The counterparty is entitled to receive daily compounded call rate for 184 days & pay 12% fixed.
- On February 1, 2012, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 1.21 Crores, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 12% p.a. for six months without lending money for 6 months fixed, while the counterparty pays interest @ 12% p.a. for 6 months on Rs. 20 Crores, without borrowing for 6 months fixed.

The above example illustrates the use of Derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

### **Forward Rate Agreement:**

Assume that on September 1, 2011, the 30 day commercial paper (CP) rate is 7% and the Scheme has an investment in a CP of face value Rs. 50 Crores, which is going to mature on October 1, 2011. If the interest rates are likely to remain stable or decline after October 1, 2011, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month does not want to take the risk of interest rates going down, he can then enter into a following Forward Rate Agreement (FRA) say as on September 1, 2011:

He can receive 1 X 2 FRA on September 1, 2011 at 7.00% (FRA rate for 1 months lending in 1 months' time) on the notional amount of Rs. 50 Crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement dates i.e. October 1, 2011 falls to 6.5%, then the Scheme receives the difference 7.00 – 6.50 i.e. 50 basis points on the notional amount Rs. 50 Crores.

### **Interest Rate Futures:**

Assume that the Fund holds an Indian ten year benchmark and the fund manager has a view that the yields will go up in the near future leading to decrease in value of the investment and subsequent decrease in Net Asset Value (NAV) of the fund. The fund house decides to use Interest Rate Futures to mitigate the risk of decline of Net Asset Value (NAV) of the fund.

#### **1<sup>st</sup> August 2016**

- The benchmark ten-year paper GS 7.80% 2021, is trading at Rs 99.00 at a yield of 7.94%
- December 2016 futures contract on the ten-year notional 7% coupon bearing Government paper is trading at a yield of 7.99% at a price of Rs 93.2650.
- The mutual fund decides to hedge the exposure by taking a short position in December 2016 interest rate futures contract.

#### **25<sup>th</sup> December 2016**

- The yield of the benchmark ten year paper has increased to 8.05% and the price has decreased to 98.25
- The December 2011 futures contract is trading at a price of Rs 91 indicating a yield of 8.45%
- The mutual fund unwinds the short position by buying the December 2011 futures contract. The transaction results in profit from the futures position, against the corresponding loss from the Government of India security position.

### **Portfolio Turnover**

Portfolio turnover is the aggregate volume of purchases and sales as a percentage of the corpus of the Scheme during a specified period of time. The portfolio turnover in the Scheme will be a function of inflows, outflows as well as market opportunities available to the Fund Manager. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolios. It will be the endeavor of the Fund Manager

to keep the portfolio turnover rates as low as possible. Active asset allocation would impact portfolio turnover. There may be trading opportunities that present themselves from time to time, where in the opinion of the fund manager, there is an opportunity to enhance the total returns of the portfolio. The fund manager will endeavor to balance the increased cost on account of higher portfolio turnover, if any, with benefits likely to be derived from such an approach.

Disclosure for derivatives to be provided in in summary form above. For detailed derivative strategies, please refer to SAI.

#### D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked with CRISIL Dynamic Bond A-III Index

The scheme intends to invest in a portfolio of instruments (debt and money market instruments) which is best captured in CRISIL Dynamic Bond A-III Index. This is a realistic estimate to track the returns of Groww Dynamic Bond Fund) at a particular risk level. The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

#### E. WHO MANAGES THE SCHEME?

**Details of the Fund Manager 's experience and qualifications are as under:**

## Part III- OTHER DETAILS

### A. COMPUTATION OF NAV

The Net Asset Value (NAV) of a mutual fund is the price at which units of a mutual fund are bought or sold. It is the market value of the fund after deducting its liabilities. The value of all units of a mutual fund portfolio are calculated on a daily basis, from this all expenses are then subtracted. The result is then divided by the total number of units the resultant value is the NAV. NAV is also sometimes referred to as Net Book Value or book Value.

Calculation of NAV Mutual fund assets usually fall under two categories – securities & cash. Securities, here, include both bonds and stocks. Therefore, the total asset value of a fund will include its stocks, cash and bonds at market value. IDCWs and interest accrued and liquid assets are also included in total assets. Also, liabilities like money owed to creditors, and other expenses accrued are also included.

The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

**Formula to calculate Net Asset Value (NAV) = (Assets – Debts) / (Number of Outstanding units)**

Here: Assets = Market value of mutual fund investments + Receivables + Accrued Income

Debts = Liabilities + Expenses (accrued) the market value of the stocks & debentures.

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan/Option. The NAVs of the Growth Option and the IDCW Option will be different after the declaration of the first IDCW.

The AMC will calculate and disclose the first NAV of the Scheme within a period of 5 business days from the date of allotment. Subsequently, the NAVs will be calculated for all the Business Days.

#### **Rounding off policy for NAV:**

To ensure uniformity, the Mutual Fund shall round off NAVs up to four decimal places & the fourth decimal will be rounded off to the next higher digit if the fifth decimal is or more than 5 i.e., if the NAV is 10.13576 it will be rounded off to 10.1358.

However, there can be no assurance that the investment objective of the scheme will be achieved.

#### **Sale Price:**

Sale price is a price at which the fund house sells / offers mutual fund units to investors; this is nothing but the NAV of the respective Scheme of Mutual Fund. For investor who wants to invest in Mutual Fund, the units are offered at NAV of the respective Scheme of Mutual Fund.

**For Example** – If investor A wants to invest Rs. 5,000/- in XYZ Scheme of Mutual Fund. The NAV of Mutual Fund Scheme XYZ is Rs. 15 per unit. Investor's Investments & Mutual Fund unit allocation in Scheme XYZ is calculated as follows:-

**Investment of Investor A**           = Investment Amount / Sale Price  
   = 5,000 / 15  
   = 333.333 units

This means investor A will be allocated **333.333 units** of Mutual Fund Scheme XYZ.

### Repurchase Price:

Repurchase price is a price at which fund house repurchases the mutual fund units back from the investor. For investor who wants to redeem his mutual fund units, the units are repurchased at respective scheme NAV less Exit Load (If Applicable)

**For Example** - If Mutual Fund Scheme XYZ is having NAV of Rs. 15 & Exit Load of 1% then the repurchase price would be calculated as follow:

$$\begin{aligned}
 \text{Repurchase Price} &= \text{NAV} * (1 - \text{Exit Load } \%) \\
 &= 15 * (1 - 0.01) \\
 &= 14.850
 \end{aligned}$$

This means the investor will realise **Rs. 14.850** per unit if he redeems from Mutual Fund Scheme XYZ.

The repurchase price of an open ended scheme shall not be lower than 95% of the NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

In case of no exit load the NAV & repurchase price are same.

### **B. NEW FUND OFFER (NFO) EXPENSES**

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. NFO expenses was borne by the AMC.

### **C. ANNUAL SCHEME RECURRING EXPENSES**

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.00 % of the daily average net assets of the scheme will be charged to the scheme as expenses (Give slab wise break up depending on the assets under management. Give plan/option wise break up if the expense structures are different). For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

<b>Expense Head</b>	<b>% p.a. of daily Net Assets* (Estimated p.a.)</b>
Investment Management & Advisory Fee	Upto 2.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	

Costs of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (shall be as per Reg 52 of SEBI MF Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.00%
Additional expenses under Regulations 52(6A)(c)	Upto 0.05%
Additional expenses for gross new inflows from specified cities**	Upto 0.30%

\*Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

\*\*SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023, and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance till further notice.

^ As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme, will however be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

\*Impact of TER on returns of both Direct plan and Regular plan through an illustration may be provided.

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the scheme (including expenses charged). Expenses charged to the scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Illustration:

If the scheme's gross of expenses NAV goes up by 15% over 1 year (for example from 10 to 11.5), and the expense charged for the scheme over that year is 2% of the initial NAV (0.2), the NAV of scheme (net of expenses) at the end of 1 year will come down to 11.3 (11.5 less 0.2) and therefore the net of expenses return for the investor will be 13%.

#### **Disclosure on Goods & Services Tax:**

Goods & Services Tax on investment management and advisory fees shall be in addition to the above expense. Further, with respect to Goods & Services Tax on other than management and advisory fees:

Goods & Services Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the Regulations.

Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods & Services Tax, if any, shall be credited to the scheme.

Goods & Services Tax on brokerage and transaction cost paid for asset purchases, if any, shall be within the limit prescribed under regulation 52 of the Regulations.

For the actual current expenses being charged to the Scheme, the investor should refer to the website of the mutual fund <https://www.growwmf.in/downloads/expense-ratio> . Any change proposed to the current expense ratio will be updated on the website at least three working days prior to the change.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme, will, however, be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

#### **D. LOAD STRUCTURE**

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.growwmf.in/downloads/fact-sheet>) or may call at (*toll free no. 80501 80222*) or your distributor.

### I. Introduction

#### DEFINITIONS & ABBREVIATIONS

A. For detailed description please click the link: <https://www.growwmf.in/downloads/sid>

#### B. Risk Factors

##### ii. Scheme Specific Risk Factors

The following are the risks associated with investment in Fixed Income Securities:

**Interest-Rate Risk:** Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

**Re-investment Risk:** Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

**Liquidity Risk:** The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

**Credit Risk:** This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

**Liquidity Risk on account of unlisted securities:** The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

**Settlement Risk:** Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

**Pre-Payment Risk -** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

#### **Risks associated with Securitised Debt:**

Domestic securitised debt assets would be in the nature of Mortgage backed securities (MBS) and Asset backed securities (ABS) with underlying pool of assets and receivables like Housing Loans, Auto loans

and corporate loans. The Securitised debt assets and the underlying asset classes like housing loans, Auto Loans and Corporate loans have the following risk factors.

- **Limited Recourse and Credit Risk:** Certificates issued on investment in securitised debt represent a beneficial interest in the underlying receivables and there is no obligation on the issuer, seller or the originator in that regard. Defaults on the underlying loan can adversely affect the pay outs to the investors (i.e. the Scheme) and thereby, adversely affect the NAV of the Scheme. While it is possible to repossess and sell the underlying asset, various factors can delay or prevent repossession and the price obtained on sale of such assets may be low.
- **Bankruptcy Risk:** If the originator of securitised debt instruments in which the Scheme invests is subject to bankruptcy proceedings and the court in such proceedings concludes that the sale of the assets from originator to the trust was not a 'true sale', then the Scheme could experience losses or delays in the payments due. Normally, care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'.
- **Risk of Co-mingling:** Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Risks associated with Mortgage Backed Securities (MBS) - Housing Loans

- **Prepayment Risk:** The fund may receive payment of monthly payouts earlier than scheduled. Prepayments shorten the life of the instrument to an extent that cannot be fully predicted. The rate of prepayments may be influenced by a variety of economic, social and other factors.
- **Credit Risk:** Delinquencies may happen which would reduce the principal amount. Typically MBS structures come with credit enhancement in variety of forms. If delinquencies are higher than the amount available in the credit enhancement facility than the monthly payouts to the fund would reduce. Historically, it has been observed that housing loans have lower default rates as compared to other forms of credit.
- **Liquidity Risk:** Historically the secondary market volume of securitised papers has been limited. This could limit the ability of the fund to resell them. Secondary market trades could be at a discount or premium depending upon the prevailing interest rates.
- **Conversion risk:** Conversion of loans from fixed rate to floating rate loans and vice versa could lead to a change in the expected cash flows from the loans.

Risks associated with Asset Backed Securities (ABS)-Auto Loans.

- **Prepayment Risk:** The fund may receive payment of monthly payouts earlier than scheduled. Prepayments shorten the life of the instrument to an extent that cannot be fully predicted. The rate of prepayments may be influenced by a variety of economic, social and other factors. Prepayments in auto loans is lower than housing loans as the shorter tenor of auto loans makes it economically unattractive to prepay after considering the prepayment charges.
- **Credit Risk:** Delinquencies may happen which would reduce the principal amount. Typically ABS structures come with credit enhancement in variety of forms. If delinquencies are higher than the amount available in the credit enhancement facility than the monthly payouts to the fund would reduce. Typically auto loans carry higher risk than MBS as the value retention of the underlying asset is higher in MBS as compared to the underlying asset of ABS.
- **Liquidity Risk:** Historically the secondary market volume of securitised papers has been limited. This could limit the ability of the fund to resell them. Secondary market trades could be at a discount or premium depending upon the prevailing interest rates.
- **Conversion risk:** Conversion of loans from fixed rate to floating rate loans and vice versa could lead to a change in the expected cash flows from the loans.

Risks associated with Asset Backed Securities (ABS) - Corporate Loans

- **Credit Risk:** The fund has an exposure to the Borrower/Borrowers and servicing of the instrument depends on the credit risk of the Borrower. The value of the instrument would fluctuate depending upon the changes in the perceived level of credit risk as well as any actual default.
- **Prepayment Risk:** The Borrower may prepay the receivables prior to their respective due dates. This may result in a change in the yield and tenor for the fund.
- **Limited Liquidity and Price Risk:** Historically the secondary market volume of securitised papers has been limited. This could limit the ability of the fund to resell them. Secondary market trades could be at a discount or premium depending upon the prevailing interest rates.

#### **Risks associated with investments in Derivatives:**

- The Scheme may invest in derivative products in accordance with and to the extent permitted under the Regulations and by RBI. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- Investment in derivatives also requires the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue.
- The options buyer's risk is limited to the premium paid
- The exchange may impose restrictions on exercise of options and may also restrict the exercise of options at certain times in specified circumstances and this could impact the value of the portfolio.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.
- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counterparty at the then prevailing (possibly unfavourable) market price.
- Derivatives also carry a market liquidity risk where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- Where derivatives are used for hedging, such use may involve a basis risk where the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.
- Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor.

- Execution of investment strategies depends upon the ability of the fund manager(s) to identify such opportunities which may not be available at all times. Identification and execution of the strategies to be pursued by the fund manager(s) involve uncertainty and decision of fund manager(s) may not always be profitable. No assurance can be given that the fund manager(s) will be able to identify or execute such strategies.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

### **Risks associated with Securities Lending**

- Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

### **Risk factors associated with repo transactions in corporate bonds**

- The market for the aforesaid product is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties. If counterparty fails, the scheme would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Scheme would be exposed to a loss of interest or principal

Further, the exposure to debt securities provided as collateral, and the issuer of the debt securities makes a default, the scheme may lose the whole, or substantial portion of the amount.

- **Potential Risk Matrix:**

The Potential Risk Class Matrix reflects the maximum risk fund manager can take in the scheme in terms of maximum interest rate risk (measured by Macaulay duration of scheme) and maximum credit risk (measured by Credit Risk value of the scheme). The threshold for values of interest rate risk & credit risk would determine the maximum risk the scheme can take.

- I. Maximum Weighted Average Interest Rate Risk of the scheme (measured in terms of Macaulay Duration):
  1. Class I: MD ≤ 1 year;
  2. Class II: MD ≤ 3 years;
  3. Class III: Any Macaulay duration

ii. Maximum Weighted Average Credit Risk of the scheme (measured in terms of Credit Risk Value assigned to each security in portfolio):

1. Class A: CRV ≥ 12
2. Class B: CRV ≥ 10
3. Class C: CRV

- **Liquidity Risk Management Framework:**

It takes into account the Liquidity Risk arising from the liability side & covers all potential liquidity risk scenarios at 95% confidence interval. Two types of liquid assets shall be maintained by Open ended debt schemes. Both these ratios are calculated & liquid assets are maintained on a daily basis at a scheme level for all open-ended debt schemes (except Overnight Fund, Gilt Fund and Gilt Fund with constant duration). In the case where liquid assets in a scheme fall below the minimum required threshold then portfolio manager cannot buy any other assets apart from liquid assets till time the liquid assets are replenished, as per the SEBI guidelines.

- **Stress Testing:**  
 Stress testing in open-ended debt schemes addresses the asset side risk from an Interest Rate Risk, Credit Risk & Liquidity Risk perspective at an aggregate portfolio level in terms of its impact on Net Asset Value of the scheme. The AMC conducts Stress testing for all open-ended debt schemes (except overnight Fund) on a fortnightly basis. The model portfolio for each category of fund is defined. In case the stress in the actual portfolio is greater than stress in model portfolio then corrective action is taken within the defined timeline.
- **Asset Liability Mismatch:**  
 The AMC monitors the Asset Liability Mismatch (ALM) requirement which address potential liquidity risk. The liability side covers all possible outflow scenarios with a 95% confidence interval over 90 days period. The asset side is rigoured based on Risk-o-meter liquidity scores in an exponential manner, to penalize assets with higher Risk-o-meter scores more than proportionately. With the above liquidity management tools, the redemption risk in the scheme can be addressed to a certain extent.

#### **Risk factors associated with investment in CDMDF**

CDMDF is set up as a scheme of the Trust registered as an Alternative Investment Fund ('AIF') in accordance with the SEBI (Alternative Investment Funds) Regulations, 2012 ("AIF Regulations"). The objective of the CDMDF is to help to develop the corporate debt market by providing backstop facility to instill confidence amongst the market participants in the corporate debt/bond market during times of market dislocation and to enhance the secondary market liquidity. In times of market dislocation, CDMDF shall purchase and hold eligible corporate debt securities from the participating investors (i.e., specified debt oriented MF schemes to begin with) and sell as markets recover. The CDMDF will thus act as a key enabler for facilitating liquidity in the corporate debt market and to respond quickly in times of market dislocation. The trigger and period for which the backstop facility will be open shall be as decided by SEBI. Thus, this backstop facility will help fund managers of the scheme to better generate liquidity during market dislocation to help the schemes fulfill liquidity obligations under stress situation.

### **C. Risk mitigation strategies**

#### **Risk control measures for investment strategy**

The risk control process involves reducing risks through portfolio diversification. This diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks.

The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored at periodic intervals and the portfolio is rebalanced within the specified time period in case of any deviations.

#### **Risk mitigation measures for portfolio volatility**

The portfolio volatility is managed in line with the objective of scheme. Portfolio volatility is monitored on a periodic basis relative to the benchmark and the peer set.

#### **Risk mitigation measures for managing liquidity**

The very nature of the scheme is such that it is subject to liquidity risk. To manage liquidity, sufficient investments are made in overnight assets to ensure daily liquidity. Investments are also made in maturity buckets to provision for unforeseen outflows.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

## **II. INFORMATION ABOUT THE SCHEME:**

A. Where will the scheme invest –

**(ii) Investments in units of mutual fund schemes**

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations. Such investment shall not exceed 5% of the net asset value of the mutual fund and no fees shall be charged towards the same.

**(iii) Investment in Short Term Deposits**

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of Scheduled Commercial Banks, in compliance with paragraph 12.16 of SEBI Master Circular for Mutual Fund dated June 27, 2024

The aforementioned securities may be acquired through Initial Public Offering (IPOs), secondary market, private placement, rights offers, negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency. Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity subject to investment limits specified elsewhere in this document.

The Fund Manager reserves the right to invest in such securities as may be permitted from time to time and which are in line with the investment objectives of the Scheme.

### **DEBT AND MONEY MARKETS IN INDIA**

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. Securities in the debt market typically vary based on their tenure and rating. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc. The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), reverse repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued

by RBI) and similar securities. In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and non-government debt vary from time to time.

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. PSU / DFI / Corporate paper with a residual maturity of less than 1 year are actively traded and offer a viable investment option.

### **Certificate of Deposits (CDs)**

**Commercial Paper (CPs).** A part of the net assets may be invested in the Triparty Repo (TREPS) or in an alternative investment as may be provided by RBI to meet the liquidity requirements.

Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.

A. Any other instruments/securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations

### **B. What are the investment restrictions?**

Investment restrictions as contained in the SEBI (MF) Regulations specifically in the Seventh Schedule of the Regulations including any amendments thereto and SEBI circulars issued from time to time and as applicable to the Scheme are provided below:

1. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company’s paid up capital carrying voting rights.
2. The Scheme shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.
3. Provide that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
4. Provided further that the sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.
5. The Scheme shall not invest more than 10% of its NAV in debt instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activities under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Trustee and the Board of AMC.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPS. Provided further that investment within such limit can be made in mortgaged backed securitized debt which are rated not below investment grade by a credit rating agency registered with SEBI.

Further, in accordance with paragraph 12.8.3.1 of SEBI Master Circular for Mutual Fund dated June 27, 2024 as amended from time to time, the scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit.

Provided that such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowing and lending obligations.

6. As per the paragraph 12.9.1 of SEBI Master Circular for Mutual Fund dated June 27, 2024, the total exposure of debt schemes in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, TBills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme.

Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme.

For the purpose of identifying sector, AMFI sector definitions shall be referred to. For unlisted / non traded securities, where sector classification does not exist, AMC will have the discretion to decide the classification as per their best judgment.

The Schemes will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

7. The Scheme shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Board of Trustee and Board of AMC.

8. The Scheme shall not make any investment in:

- a) any unlisted security of an associate or group company of the sponsor; or
- b) any security issued by way of private placement by an associate or group company of the sponsor; or
- c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.

9. Transfer of investments from one Scheme to another Scheme in the same Mutual Fund is permitted provided: such transfers are done at the prevailing market price for quoted instruments on a spot basis (“spot basis” shall have the same meaning as specified by a Stock Exchange for spot transactions); the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made. IST purchases would be allowed subject to guidelines as specified in paragraph 12.30 of SEBI Master Circular for Mutual Fund dated June 27, 2024.

10. The Scheme may invest in other Scheme under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-scheme investment made by all the Schemes under the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund.

11. The Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.

12. The Fund may buy and sell securities on the basis of deliveries and will not make any short sales or engage in carry forward transactions except as and when permitted by the RBI in this regard (for example “when issued market” transactions).

13. All the Scheme’s investments will be in transferable securities or bank deposits or in money at call or any such facility provided by RBI in lieu of call.

14. No loans for any purpose can be advanced by the Scheme.
15. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest and/or dividend to the Unitholders, provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
16. The scheme shall not make any investment in a Fund of Funds scheme.
17. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the Mutual Fund may park the funds of the Scheme in short term deposits of scheduled commercial banks, in accordance with paragraph 12.16 of SEBI Master Circular for Mutual Fund dated June 27, 2024 as may be amended from time to time:
- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
  - ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
  - iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
  - iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
  - v. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme.
  - vi. The above norms do not apply to term deposits placed as margins for trading in cash and derivatives market.
18. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.
- Provided that the Scheme may invest in unlisted nonconvertible debentures up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time.
  - Provided further that the Scheme shall comply with the norms under the above clauses within the time and in the manner as may be specified by SEBI.
  - Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by SEBI from time to time.

As per these norms, investments in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall not exceed 5% of net assets of the Scheme.

Further, the Scheme shall comply with provisions of paragraph 12.9 of SEBI Master Circular for Mutual Fund dated June 27, 2024 regarding investment in Debt and Money Market Instruments, as amended from time to time, to the extent applicable to the Scheme

19. The Scheme shall invest in Debt instruments having Structured Obligations/ Credit Enhancements in accordance with provisions of paragraph 12.3.1 of SEBI Master Circular for Mutual Fund dated June 27, 2024 as may be amended by SEBI from time to time. The same are currently as under:

The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:

- a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and
- b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

For this purpose, a group means a group as defined under regulation 2 (mm) of the Regulations and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

However the above Investment limits shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.

Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

20. The Scheme shall not invest more than 20% of its net assets in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks). Such investment limit may be extended to 25% of the net assets of the Scheme with the prior approval of the Trustees.

Provided that investments by the Scheme in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the Scheme. Such investment limit may be extended to 15% of the net assets of the Scheme with prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of the Regulations and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

### **Limitations and restrictions for investments in derivatives**

Paragraph 7.5 of SEBI Master Circular for Mutual Fund dated June 27, 2024 inter alia specified the guidelines pertaining to trading by Mutual Funds in Exchange Traded derivatives. The position limits have subsequently been modified.

All derivative position taken in the portfolio would be guided by the following principles.

#### **i. Position limit for the Mutual Fund in index options contracts**

- a. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

#### **ii. Position limit for the Mutual Fund in index futures contracts:**

- a. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

#### **iii. Additional position limit for hedging**

In addition to the position limits at point (i) and (ii) above, the Mutual Fund may take exposure in equity index derivatives subject to the following limits:

1. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
2. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

#### **iv. Position limit for Mutual Fund for stock based derivative contracts**

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, is defined in the following manner:-

1. For stocks having applicable market-wise position limit (MWPL) of Rs. 500 crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs. 300 crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 crores, whichever is lower
2. For stocks having applicable market-wise position limit (MWPL) less than Rs. 500 crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 crores whichever is lower.

#### **v. Position limit for each scheme of a Mutual Fund**

The scheme-wise position limit / disclosure requirements shall be –

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:  
1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contract on a particular underlying stock (in terms of number of contracts).
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
3. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

#### **Exposure limits for the Scheme:**

In accordance with paragraph 12.25 of SEBI Master Circular for Mutual Fund dated June 27, 2024, the following exposure limits for investment in derivatives will be applicable to the Scheme:

1. The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the Scheme. However, cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
2. The Scheme shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid shall not exceed 20% of the net assets of the Scheme.
4. Exposure due to hedging positions shall not be included in the above mentioned limits subject to the following:
  - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
  - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall be added and treated under limits mentioned in point 1 above.
  - c. Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.
  - d. The quantity of underlying associated with the derivative position taken for hedging purposes shall not exceed the quantity of the existing position against which hedge has been taken.

5. The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions shall have to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the scheme.

6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated as exposure for the limit mentioned in point 1 above.

7. Definition of Exposure in case of Derivative Positions:

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

<b>Position</b>	<b>Exposure</b>
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	<p>Not Applicable</p> <p>Units once redeemed will not be reissued.</p>
Restrictions, if any, on the right to freely retain or dispose of units being offered.	<p>The Mutual Fund will be repurchasing (subject to completion of lock-in period, if any) and issuing units of the Scheme on an ongoing basis and hence the transfer facility is found redundant.</p>

	<p>Any addition / deletion of name from the folio of the Unit holder is deemed as transfer of Units. In view of the same, additions / deletions of names will not be allowed under any folio of the Scheme. The said provisions in respect of deletion of names will not be applicable in case of death of a Unit holder (in respect of joint holdings) as this is treated as transmission (transfer of units by operation of law) of Units and not transfer. Units of the Scheme held in demat form shall be freely transferable (subject to lock-in period, if any) and will be subject to transmission facility in accordance with the provisions of the SEBI (Depositories and Participants) Regulations, 1996 as amended from time to time.</p> <p>Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units. Please refer to paragraphs on ‘Transfer and Transmission of units, Right to limit Redemption, Suspension of Purchase and/ or Redemption of Units and Pledge of Units’ in the SAI for further details.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>The Cut-off time for the Scheme is 3:00 pm and the Applicable NAV will be as under:</p> <p><b>For allotment of units, it shall be necessary that:</b></p> <p>a) Application for purchase/switch-in is received before the applicable cut-off time. b) Funds for the entire amount of subscription / purchase as per the application for purchase/switch-in are credited to the bank account of the Scheme before the cut-off time.c) The funds are available for utilization before the cut-off time without availing any credit facility whether intra-day or otherwise, by the Scheme.</p> <p>For Purchase (including switch-in) of any amount:</p> <ul style="list-style-type: none"> <li>● In respect of valid applications received upto 3.00 p.m. and where the funds for the entire amount are available for utilization before the cut-off time i.e. credited to the bank account of the Scheme before the cut-off time - the closing NAV of the day shall be applicable.</li> <li>● In respect of valid applications received after 3.00 p.m. and where the funds for the entire amount are credited to the bank account of the Scheme either on the same day or before the cut-off time of the next Business Day i.e. available for utilization before the cut-off time of the next Business Day - the closing NAV of the next Business Day shall be applicable.</li> <li>● Irrespective of the time of receipt of application, where the funds for the entire amount are credited to the bank account of the Scheme before the cut-off time on any subsequent Business Day i.e. available for utilization before the cut-off time on any</li> </ul>

subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable.

For Switch-ins of any amount:

For determining the applicable NAV, the following shall be ensured:

- Application for switch-in is received before the applicable cut-off time.
- Funds for the entire amount of subscription / purchase as per the switch-in request are credited to the bank account of the Scheme before the cut-off time.
- The funds are available for utilization before the cut-off time.
- In case of „switch“ transactions from one scheme to another, the allocation shall be in line with redemption payouts.

For investments through systematic investment routes such as Systematic Investment Plans (SIP), Systematic Transfer Plans (STP), etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the instalment date of the SIP, STP or record date of IDCW etc.”

The Trustee reserves the right to change / modify the aforesaid requirements at a later date in line with SEBI directives from time to time

**For allotment of units, it shall be ensured that:**

- i. The application is received before the applicable cut-off time,
- ii. Funds for the entire amount of subscription/ purchase as per the application/ switch-in request are credited to the bank account of the Scheme before the cut-off time,
- iii. The funds are available for utilisation before the cut-off time without availing any credit facility whether intra-day or otherwise, by the Scheme.

**For Redemption/ Switch out**

- In respect of valid applications received upto 3.00 p.m. on a Business Day, the closing NAV of the same day will be applicable; and
- In respect of valid applications received after 3.00 p.m., the closing NAV of the next Business Day will be applicable.

**Technical issues when transactions are processed through online facilities/ electronic modes:**

The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / SIP/ sale / switch of units is received in the servers of AMC/RTA. In case of transactions through

	<p>online facilities / electronic modes, there may be a time lag of few seconds or upto 1-7 banking days between the amount of subscription being debited to investor's bank account and the subsequent credit into the respective Scheme's bank account. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Groww Asset Management Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units. The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme. Representation of SIP transaction which have failed due to technical reasons will also follow same rule.</p>
<p>Minimum amount for purchase/redemption/switches</p>	<p>Ongoing: Rs.500 and in multiples of Re. 1          Switch-in amount: Rs.500 and in multiples of Re.1.          The minimum subscription limits for new purchases/additional purchases will apply to each Option separately.</p> <p><b>Minimum Redemption Amount:</b>          The minimum redemption amount shall be Rs. 500 and in multiples of Re. 1          In case, if the investor wants to submit redemption in units, the value should be equivalent to the minimum redemption amount specified above as on the applicable NAV date and the units should be in multiples of 0.001.          In case the available balance in folio is less than the minimum redemption amount/units, then the investor can submit a request for "All units/Full redemption" of the amount / units available in folio.          If the redemption is received in "Units" or "Amount" and reported Units/Amount are more than available units/amount in the folio then it will be considered as full unit/amount redemption.          Please note this will not be applicable for units under pledge and demat folios.          The AMC reserves the right to change the minimum amounts for various purchase / redemption/ switch. Such changes shall only be applicable to transactions on a prospective basis.</p>
<p>Accounts Statements</p>	<p>The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 working days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form).</p> <p>A Consolidated Account Statement (CAS) detailing all the transactions across all mutual funds (including transaction charges paid to the distributor) and holding at the end of the month shall be sent to the Unit holders in whose folio(s)</p>

	<p>transaction(s) have taken place during the month. The monthly CAS will be dispatched to investors that have opted for delivery via electronic mode (e-CAS) within twelve (12) days from the month end and to investors that have opted for delivery via physical mode within fifteen (15) days from the month end.</p> <p>Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable. The CAS will be dispatched to investors that have opted for e-CAS on or before the eighteenth (18th) day of April and October and to investors that have opted for delivery via physical mode by the twenty first (21st) day of April and October.</p> <p>For further details, refer SAI.</p>
Dividend/ IDCW	The payment of dividend/IDCW to the unitholders shall be made within seven working days from the record date.
Redemption	<p>The redemption or repurchase proceeds shall be dispatched to the unitholders within three working days from the date of redemption or repurchase.</p> <p>For list of exceptional circumstances refer para 14.1.3 of SEBI Master Circular for Mutual Funds dated June 27, 2024</p>
Bank Mandate	<p>Investors are requested to note the following process shall be adopted for Change of Bank Mandate in the folio:</p> <ol style="list-style-type: none"> <li>a) Investors shall submit duly filled in “Non-Financial Transaction Form &amp; Multiple Bank Accounts Registration Form” along with the prescribed documents at any of the AMC branches / ISCs of Kfin.</li> <li>b) Any unregistered bank account or a new bank account forming part of redemption request shall not be processed.</li> <li>c) There shall be a cooling period of 10 calendar days for validation and registration of new bank account. Further, in case of receipt of redemption request during this cooling period, the validation of bank mandate and dispatch of redemption proceeds shall be completed within a period of 03 working days from the date of receipt of redemption request.</li> <li>d) In the interim, redemptions / IDCW payments, if any, will be processed as per specified service standards and the last registered bank account information will be used for such payments to Unit holders.</li> <li>e) In case, the request for change in bank account information being invalid / incomplete / dissatisfactory in respect of signature mismatch/ document insufficiency/ not complying with any requirements as stated above, the request for such change will not be processed.</li> </ol>

	<p><b>Change of Address:</b>          For change of address, Investors should fill ‘KYC change form’ and submit it to any KYC Registration Agency (KRA) along with following documents:</p> <ul style="list-style-type: none"> <li>• Proof of new address (POA) and</li> <li>• Any other document/ form that the KRA may specify form time to time.</li> </ul> <p>The AMC reserves the right to collect proof of old address on a case to case basis while effecting the change of address. The self-attested copies of above stated documents shall be submitted along with original for verification at any of the AMC branches/Investor Service Centres (ISCs) of Kfin. The original document shall be returned to the investors over the counter upon verification. In case the original of any document is not produced for verification, then the copies should be properly attested/verified by entities authorized for attesting/verification of the documents. List of admissible documents for POA &amp; POI mentioned in paragraph 16.2.4.4(b) of SEBI Master Circular for Mutual Fund dated June 27, 2024 shall be considered.</p> <p>For further details please refer to paragraph on Registration of Multiple Bank Accounts, Change of Bank Mandate and Change of Address in respect of an Investor Folio in the SAI.</p> <p>The AMC reserves the right to alter/ discontinue all / any of the abovementioned special product(s)/ facility(ies) at any point of time. Further, the AMC reserves the right to introduce more special product(s)/ facility (ties) at a later date subject to prevailing SEBI Guidelines and Regulations.</p>
Delay in payment of redemption / repurchase proceeds/dividend	The Asset Management Company shall be liable to pay interest to the unitholders at rate as specified vide clause 14.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024 by SEBI for the period of such delay
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	As per the Clause 14.3 of SEBI Master Circular dated June 27, 2024, the unclaimed Redemption and dividend amounts shall be deployed by the Fund in call money market or money market instruments and in a separate plan of Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points. The AMCs shall not be permitted to charge any exit load in this plan. Provided that such schemes where the unclaimed redemption and IDCW amounts are deployed shall be only those Overnight scheme/ Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix. The investors who claim these amounts during a

	<p>period of three years from the due date shall be paid at the prevailing NAV. After a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year. In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts. The website of Groww Mutual Fund also provides information on the process of claiming the unclaimed amount and the necessary forms / documents required for the same. The details of such unclaimed amounts are also disclosed in the annual report sent to the Unit Holders.</p> <p>Important Note: All applicants must provide a bank name, bank account number, branch address, and account type in the Application Form.</p>
<p>Disclosure w.r.t investment by minors</p>	<p>As per paragraph 17.6 of SEBI Master circular for Mutual Funds dated June 27, 2024, the following Process for Investments in the name of a Minor through a Guardian will be applicable:</p> <ol style="list-style-type: none"> <li>a. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed.</li> <li>b. Irrespective of the source of payment for subscription, all redemption proceeds shall be credited only in the verified bank account of the minor, i.e. the account the minor may hold with the parent/ legal guardian after completing all KYC formalities.</li> <li>c. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions shall be allowed till the status of the minor is changed to major.</li> <li>d. AMCs shall build a system control at the account set up stage of Systematic Investment Plan (SIP), Systematic Transfer Plan (STP) and Systematic Withdrawal Plan (SWP) on the basis of which, the standing instruction is suspended when the minor attains majority, till the status is changed to major.</li> </ol> <p>Please refer SAI for detailed process on investments made in the name of a Minor through a Guardian and Transmission of Units.</p>

### C. Transparency/NAV Disclosure (Details with reference to information given in Section I)

The AMC will calculate and disclose the first NAV of the Scheme within a period of 5 business days from the date of allotment. Subsequently the AMC will calculate and disclose the NAVs for all Business Days. The Asset Management Company (“AMC”) shall update the NAVs on the website of Association of Mutual Funds in India (“AMFI”) (www.amfiindia.com) by 11.00 p.m. every Business Day. The NAV shall also be available on AMC website (<https://www.growwmf.in/nav>). If the NAVs are not available before the commencement of business hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

#### Transaction charges and stamp duty-

### D. Transaction Charges

Transaction charges shall not be deducted

#### Applicability of Stamp Duty :

Pursuant to Notification No. S. O. 1226 (E) and G.S.R 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value shall be levied on applicable mutual fund transactions. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions to the unitholders would be reduced to that extent. The stamp duty will be deducted from the net investment amount i.e. gross investment amount less any other deduction like transaction charge. Units will be created only for the balance amount i.e. Net Investment Amount as reduced by the stamp duty. The stamp duty will be computed at the rate of 0.005% on an inclusive method basis.

For instance: If the transaction amount is Rs. 100100 /- and the transaction charge is Rs. 100, the stamp duty will be calculated as follows: ((Transaction Amount – Transaction Charge) \*0.005%) = Rs.5. If the applicable Net Asset Value (NAV) is Rs. 10 per unit, then units allotted will be calculated as follows: (Transaction Amount – Transaction Charge – Stamp Duty)/ Applicable NAV = 9,999.50 units.
