Systematic Investment Plan (SIP):

This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to “invest as you earn” and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. The conditions for investing in SIP will be as follows:

SIP Frequency:

SIP Installments and Amount –

Daily – Rs. 100 and in multiples of Re.1 thereafter

Weekly – Rs. 100 and in multiples of Re.1 thereafter

Monthly – Rs. 500 and in multiples of Re.1 thereafter

Quarterly - Rs. 500 and in multiples of Re.1 thereafter

Minimum No. of SIP instalments:

Minimum number of installments for each frequency are -

Daily – 180 instalments

Weekly – 24 instalments

Monthly - 12 instalments

Quarterly – 4 instalments

SIP Dates:

Daily- Every Business Day

Weekly - 1st, 8th, 15th, & 22nd

Monthly & Quarterly - Any day between 1st to 28th

(In case any of these days fall on a non-business day, the transaction will be effected on the next business day of the Scheme).

Registration period: There must be at least 30 days between the first SIP cheque and subsequent due date of Auto Debit [NACH clearing];

In case of the auto debit facility, the default options (where auto debit period, frequency and SIP date are not indicated) will be as follows:

- SIP auto debit period: The SIP auto debit will continue till 5 years.

- SIP date: 15th of the month (commencing 30 days after the first SIP instalment date); and

- SIP frequency: Monthly

The load structure prevailing at the time of submission of the SIP application [whether fresh or extension] will apply for all the instalments indicated in such application;

All the cheques/ payment instructions [including the first cheque/payment instruction] shall be of equal amounts in case of SIP applications;

Investors may also choose to invest any lump sum amount along with the first SIP instalment by way of a single cheque/ payment instruction.

Investors will have the right to discontinue the SIP facility at any time by sending a written request to any of the Official Point(s) of Acceptance. Notice of such discontinuance should be received at least 30 days prior to the due date of the next debit. On receipt of such request, the SIP facility will be terminated. It is clarified that if the Fund fails to get the proceeds for three consecutive Instalments out of a

continuous series of Instalments submitted at the time of initiating a SIP), the AMC reserves the right to discontinue the SIP.

Systematic Transfer Plan (STP)

This facility enables unitholders to transfer a fixed specified amount from one open-ended scheme of the Fund (source scheme) to another open-ended scheme of the Fund (target scheme), in existence at the time of availing the facility of STP, at applicable NAV, subject to the minimum investment criteria of the target scheme. Investors can opt for the Systematic Transfer Plan by investing a lump sum amount in one scheme of the fund and providing a standing instruction to transfer sums at regular intervals. Investors could also opt for STP from an existing account by quoting their account / folio number. However, units marked under lien or pledged in the source scheme shall not be eligible for STP.

The conditions for investing in STP will be as follows:

STP Frequency : Daily, Weekly, Monthly and Quarterly;

Minimum STP instalment amount: Rs. 500/- per instalment and in multiples of Re.1/- thereafter for Daily/ Weekly/ Monthly/ Quarterly;

Minimum No. of STP instalments

Daily - 180 instalments

Quarterly - 4 instalments

STP Dates:

Daily – Every business day

Weekly option - On every Friday of the week

Monthly/ Quarterly option – 2nd, 8th, 15th or 23rd of the month/ of any month in the quarter

Registration period: A minimum period of 8 business days shall be required for registration under STP.

The default options (where the period, frequency and STP date are not indicated) will be as follows:

- STP period: 12 instalments.
- STP date: 15th of every month; and
- STP frequency: Monthly

Unitholder may change the amount (but not below the minimum specified amount) / frequency by giving written notice to any of the Official Point(s) of Acceptance at least 8 business days prior to next STP execution date. Units will be allotted/ redeemed at the applicable NAV of the respective dates of the Scheme on which such investments/withdrawals are sought from the Scheme.

The STP may be terminated on a written notice of 8 business days by a unitholder of the Scheme. The STP will be automatically terminated if all units are liquidated or withdrawn from the source scheme or pledged or upon receipt of intimation of death of the unitholder.

Systematic Withdrawal Plan (SWP)

This facility enables unitholders to withdraw a fixed sum (subject to tax deduction at source, if applicable) by redemption of units in the unitholder's account at regular intervals through a one-time request.

The conditions for investing in SWP will be as follows:

SWP Frequency : Monthly; Quarterly

	<p>Minimum SWP instalment amount: Monthly: Rs. 500/- and in multiples of Re.1/- thereafter; Quarterly – Rs.500/- and in multiples of Re.1 thereafter</p> <p>Minimum No. of SWP instalments: Monthly - 12 instalments Quarterly – 4 installments</p> <p>SWP Dates: 2nd, 8th, 15th or 23rd of every month as the STP date (in case any of these days fall on a non-business day, the transaction will be effected on the next business day of the Scheme).</p> <p><u>Registration period:</u> A minimum period of 8 calendar days shall be required for registration under SWP.</p> <p>The default options (where the period, frequency and SWP date are not indicated) will be as follows:</p> <ul style="list-style-type: none"> • SWP period: The SWP will continue till 5 years. <p>SWP frequency : Monthly</p> <ul style="list-style-type: none"> • SWP date: 8th of every month. <p>Unit holder may change the amount (but not below the minimum specified amount) / frequency by giving written notice to any of the Official Point(s) of Acceptance at least 8 calendar days prior to next SWP execution date.</p> <p>The SWP may be terminated on a written notice of 8 calendar days by a unitholder of the Scheme. SWP will be automatically terminated if all units are liquidated or withdrawn from the Scheme or pledged or upon receipt of intimation of death of the unitholder.</p> <p><u>IDCW Sweep Facility</u></p> <p>IDCW Sweep facility shall be in addition to the existing IDCW Payout and IDCW Reinvestment Option. Default IDCW Option shall be IDCW Payout.</p> <p>Under IDCW Sweep Facility, Unit holders can opt for switching the IDCW earned under any Schemes (Source Scheme) of Groww Mutual Fund into any other Schemes (Target Scheme) of Groww Mutual Fund. The IDCW (net of applicable DDT, if any) shall be swept subject to minimum investment eligibility requirements of the Target Scheme at applicable NAV based prices.</p> <p>The minimum amount for sweep out to be Rs. 500/-. In case the sweep amount is less than Rs. 500/-, the IDCW amount shall be reinvested in the Source scheme. This facility shall be processed on the record date of the IDCW declared under the Source Scheme. Further, this facility shall not allow for switch of partial IDCW or switch of IDCW to multiple schemes. In case the investor fails to specify his preference of Option for the Target scheme into which the IDCW has to be swept, Sweep-in amount shall be invested in default plan / option as mentioned in Scheme Information Document (SID) of Target scheme.</p> <p>The Load Structure prevailing at the time of submission of the STP/SWP application will apply for all the installments indicated in such application.</p> <p>The AMC reserves the right to introduce STP/SWP/ IDCW Sweep Facility at any other frequencies or on any other dates as the AMC may feel appropriate from time to time.</p>

Transactions Through MF Utility ("MFU"):

The AMC has entered into an Agreement with MF Utilities India Private Limited ("MFUI"), a "Category II - Registrar to an Issue" under SEBI (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, for usage of MF Utility ("MFU") a "Shared Services" initiative formed by the Asset Management Companies of SEBI registered Mutual Funds under the aegis of Association of Mutual Funds in India (AMFI). MFU acts as a transaction aggregation portal for enabling transaction in multiple Schemes of various Mutual Funds with a single form and a single payment instrument. Both financial and non-financial transactions pertaining to Scheme(s) of Groww Mutual Fund ('the Fund') can be done through MFU at the authorized Points of Service ("POS") of MFUI. The details of POS with effect from the respective dates published on MFU website at www.mfuindia.com will be considered as Official Point of Acceptance (OPA) for transactions in the Scheme(s) of the Fund.

Additionally, such transactions can also be carried out electronically on the online transaction portal of MFU at www.mfuonline.com as and when such a facility is made available by MFUI and that the same will be considered OPA for transactions in the Scheme(s) of the Fund.

The key features of MFU are:

1. Investors will be required to obtain Common Account Number ("CAN") for transacting through MFU.
2. Investors can create a CAN by submitting the CAN Registration Form (CRF) and necessary documents at the Point of Service (POS) of MFUI. The AMC and/ or CAMS, Registrar and Transfer Agent (RTA) of the Fund shall provide necessary details to MFUI as may be needed for providing the required services to investors / distributors through MFU.
3. Investors will be allotted a CAN, a single reference number for all investments across Mutual Funds, for transacting in multiple Schemes of various Mutual Funds through MFU and to map existing folios, if any.
4. Currently, the transactions facilitated through MFU for the investors are:
 - (i) CAN registration;
 - (ii) Submission of documents to KRAs for KYC Registration;
 - (iii) Financial transactions like Purchases, Redemptions and Switches, Registration of Systematic Transactions like Systematic Investments (SIP) using a single Mandate, Systematic Withdrawals (SWP) and Systematic Transfers (STP);
 - (iv) Non-financial transactions (NFT) like Bank Account changes, facilitating change of address through KRAs etc. based on duly signed written requests from the Investors.
5. The CRF and other relevant forms for transacting through MFU can be downloaded from MFUI website at www.mfuindia.com or can be obtained from MFUI POS.
6. Investors transacting through MFU shall be deemed to have consented to exchange of information viz. personal and / or financial (including the changes, if any) between the Fund / AMC and MFUI and / or its authorized service providers for validation and processing of transactions carried out through MFU.
7. For details on carrying out the transactions through MFU or any queries or clarifications related to MFU, investors are requested to contact the Customer Care of MFUI on 1800-266-1415 (during the business hours on all days except Sunday and Public Holidays) or send an email to clientservices@mfuindia.com. Investors of the Fund can also get in touch with Investor Service Centres (ISCs) of the AMC to know more about MFU.

8. For any escalations and post-transaction queries pertaining to Scheme(s) of the Fund, the Investors are requested to get in touch with the ISCs of the AMC. The transactions carried out through MFU shall be subject to the terms & conditions as may be stipulated by MFUI / Fund / the AMC from time to time. The terms & conditions of offering of the Scheme(s) of the Fund as specified in the Scheme Information Document (SID), Key Information Memorandum ('KIM') and Statement of Additional Information ('SAI') shall be applicable to transactions through MFU.

Registration of Multiple Bank Accounts in respect of an Investor Folio:

An Investor can register with the Fund upto 5 bank accounts in case of individuals and HUFs and upto 10 in other cases.

Registering of Multiple Bank Accounts will enable the Fund to systematically validate the pay-in of funds and avoid acceptance of third party payments. For the purpose of registration of bank account(s), Investor should submit Bank Mandate Registration Form (available at the CSCs/ AMC Website) together with any of the following documents: Cancelled original cheque leaf in respect of bank account to be registered where the account number and names of the account holders are printed on the face of the cheque; or

The above documents will also be required for change in bank account mandate submitted by the Investor. The AMC will register the Bank Account only after verifying that the sole/ first joint holder is the holder/ one of the joint holders of the bank account. In case if a copy of the above documents is submitted, Investor shall submit the original to the AMC/ Service Centre for verification and the same shall be returned.

In case of Multiple Registered Bank Account, Investor may choose one of the registered bank accounts for the credit of redemption/ IDCW proceeds (being —Pay-out bank account).

Investor may however, specify any other registered bank accounts for credit of redemption proceeds at the time of requesting for the redemption. Investor may change such Pay-out Bank account, as necessary, through written instructions.

However, if request for redemption is received together with a change of bank account (unregistered new bank account) or before verification and validation of new bank account, the redemption request would be processed to the currently registered default old bank account.

Change of Bank Mandate:

Investors are requested to note the following process shall be adopted for Change of Bank Mandate in the folio:

a) Investors shall submit duly filled in "Non-Financial Transaction Form & Multiple Bank Accounts Registration Form" along with the prescribed documents at any of the AMC branches / ISCs of Kfin.

b) Any unregistered bank account or a new bank account forming part of redemption request shall not be processed.

c) There shall be a cooling period of 10 calendar days for validation and registration of new bank account. Further, in case of receipt of redemption request during this cooling period, the validation of bank mandate and dispatch of redemption proceeds shall be completed within a period of 03 working days from the date of receipt of redemption request.

	<p>d) In the interim, redemptions / IDCW payments, if any, will be processed as per specified service standards and the last registered bank account information will be used for such payments to Unit holders.</p> <p>e) In case, the request for change in bank account information being invalid / incomplete / dissatisfactory in respect of signature mismatch/ document insufficiency/ not complying with any requirements as stated above, the request for such change will not be processed.</p> <p>Change of Address: For change of address, Investors should fill ‘KYC change form’ and submit it to any KYC Registration Agency (KRA) along with following documents:</p> <ul style="list-style-type: none"> • Proof of new address (POA) and • Any other document/ form that the KRA may specify from time to time. <p>The AMC reserves the right to collect proof of old address on a case to case basis while effecting the change of address. The self-attested copies of above stated documents shall be submitted along with original for verification at any of the AMC branches/Investor Service Centres (ISCs) of KFin. The original document shall be returned to the investors over the counter upon verification. In case the original of any document is not produced for verification, then the copies should be properly attested/verified by entities authorized for attesting/verification of the documents. List of admissible documents for POA & POI mentioned in paragraph 16.2.4.4(b) of SEBI Master Circular dated June 27, 2024 shall be considered.</p> <p>For further details please refer to paragraph on Registration of Multiple Bank Accounts, Change of Bank Mandate and Change of Address in respect of an Investor Folio in the SAI.</p> <p>The AMC reserves the right to alter/ discontinue all / any of the abovementioned special product(s)/ facility(ies) at any point of time. Further, the AMC reserves the right to introduce more special product(s)/ facility (ties) at a later date subject to prevailing SEBI Guidelines and Regulations.</p> <p><u>MFCentral as Official Point of Acceptance of Transactions (OPAT):</u></p> <p>Pursuant to paragraph 16.6 of SEBI Master Circular for Mutual Funds dated June 27, 2024, with respect to complying with the requirements of RTA inter-operable Platform for enhancing investors’ experience in Mutual Fund transactions / service requests, the QRTA’s, Kfin Technologies Limited and Computer Age Management Services Limited (CAMS) have jointly developed MFCentral, a digital platform for Mutual Fund investors.</p> <p>MFCentral is created with an intent to be a one stop portal / mobile app for all Mutual fund investments and service-related needs that significantly reduces the need for submission of physical documents by enabling various digital / physical services to Mutual fund investors across fund houses subject to applicable T&Cs of the Platform. MFCentral will be enabling various features and services in a phased manner. MFCentral may be accessed using https://mfcentral.com/ and a Mobile App in future.</p> <p>With a view to comply with all provisions of the aforesaid circular and to increase digital penetration of Mutual funds, Groww Mutual Fund designates MFCentral as its OPAT effective from September 24, 2021.</p> <p>Any registered user of MFCentral, requiring submission of physical document as per the requirements of MFCentral, may do so at any of the designated Investor Service Centres/ Collection Centres of KFin Technologies Limited or CAMS.</p>

PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Government of India Securities/ State Government Securities, Treasury Bills and Cash Management Bills across maturity	80%	100%
Other Debt Securities and Money Market Instruments*	0%	20%

*Money market instruments will include commercial papers, commercial bills, Triparty REPO, Reverse Repo and equivalent and any other instruments as specified by SEBI and Reserve Bank of India from time to time.

In line with Para 4.5 of SEBI Master circular, Securities in which investment is made for the purpose of ensuring liquidity (debt and money market instruments) are those that fall within the definition of liquid assets which includes Cash, Government Securities, T-bills and Repo on Government Securities

The Scheme may also take exposure to:

Securitized debt up to 20% of the net assets in other debt and money market instruments.

Investment in Fixed Income Derivatives shall be upto 50% of total assets.

There will be no restriction on maturity of the securities.

Investment in overseas debt Securities shall be upto 20% of total assets in accordance with the guidelines stipulated by SEBI and RBI from time to time.

Investment in overseas Debt Securities would be as per SEBI Master Circular for Mutual Funds dated June 27, 2024. The Scheme may invest up to US \$ 30 million in overseas debt securities. As per SEBI Master Circular for Mutual Funds dated June 27, 2024, Mutual Funds can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund within the overall industry limit of US \$ 7 billion.

The gross exposure of the scheme to repo transactions in corporate debt securities (including listed AA and above rated corporate debt securities and Commercial Papers (CPs) and Certificate of Deposits (CDs) shall not be more than 10% of the net assets of the scheme or as permitted by extant SEBI regulation. In addition to the instruments stated in the table above, the Scheme may enter into repos/reverse repos as may be permitted by RBI. From time to time, the Scheme may hold cash. A part of the net assets may be invested in the Tri-party Repos on Government securities or treasury bills (TREPS) or repo or in an alternative investment as may be provided by RBI to meet the liquidity requirements, subject to approval, if any.

The Scheme will not engage in Short Selling of securities. The Scheme may engage in Stock lending of securities in accordance with the framework relating to securities lending and borrowing specified by SEBI. The Scheme

shall not deploy more than 20% of its net assets in securities lending and not more than 5% of the net assets of the Scheme will be deployed in securities lending to any single counterparty.

The Scheme may invest in other scheme(s) under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all Schemes under the same AMC or in Schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. Further, the Scheme shall not invest in any fund of funds scheme.

The cumulative gross exposure through debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, other permitted securities/assets and such other securities/assets as may be permitted by SEBI from time to time shall not exceed 100% of the net assets of the scheme.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days. In accordance with Clause 3.4 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the underlying index shall comply with the portfolio concentration norms as prescribed.

Investments in Scheme by AMC, Sponsor & Associates

Subject to the Regulations, the AMC and investment companies managed by the Sponsor(s), their associate companies and subsidiaries may invest either directly or indirectly, in the Scheme during the NFO and/or on ongoing basis. However, the AMC shall not charge any investment management fee on such investment in the Scheme, in accordance with sub-regulation 3 of Regulation 24 of the Regulations and shall charge fees on such amounts in future only if the SEBI Regulations so permit. The associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of the Scheme's units and collectively constitute a major investment in the Schemes. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and required by applicable regulations and also in accordance with Clause 6.11 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 regarding minimum number of investors in the Scheme. In terms of SEBI notification dated August 5, 2021 and as per Regulation 25, sub-regulation 16A of SEBI (Mutual Funds) Regulations, the asset management company shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by the Board from time to time. In case of NFO, AMC's investment shall be made during the allotment of units and shall be calculated as a percentage of the final allotment value excluding AMC's investment pursuant to this circular.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Changes in Asset Allocation Pattern

Rebalancing due to passive breach

Further, as per para 2.9 of SEBI Master Circular dated June 27, 2024, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as specified in para 2.9. of SEBI Master Circular dated June 27, 2024.

Rebalancing of deviation due to short term defensive consideration

Any alteration in the investment pattern will be for a short term on defensive considerations as per SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall endeavor to rebalance the portfolio within 30 business days. It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

B. WHERE WILL THE SCHEME INVEST?

Following should be enabled as per SEBI guidelines -

- Securities created and issued/ guaranteed by the Central and State Governments and/or repos/ reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee (including but not limited to Indian Government Bond, State Development Loans/State- Gsec issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments)
- Triparty repo on Government securities or treasury bills or repo or any alternative investment as may be provided by RBI.
- Derivative instruments like Interest Rate Swaps, Forward Rate Agreements, Derivatives-Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged) and such other derivative instruments as permitted by SEBI/RBI from time to time.
- Investment in overseas debt securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time

- Certificate of Deposit (CD)
- Commercial Paper (CP)
- Units of Mutual Fund Schemes
- Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations

Note: The securities/debt instruments mentioned above could be listed or unlisted, secured or unsecured, rated or unrated and of varying maturities and other terms of issue. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals. The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per guidelines/regulations applicable to such transactions.

Disclosures regarding investments in Securitised Debt:

1. How the risk profile of securitized debt fits into the risk appetite of the scheme?

An evaluation procedure similar to that applied in analyzing plain vanilla debt (commercial paper, non convertible debentures and bonds) will be employed for analyzing securitized debt and assessing their suitability in line with investment objective of the scheme.

Normally, the risk of investing in securitized debts is similar to investing in debt securities. However as securitized debt involves staggered cash flows from underlying loans, there is always a risk of pre-payment of loan installments by the ultimate borrower which may reduce the returns of the Scheme if the re-investment rates are lower than initially envisaged. The efforts will be made to identify and make investments in those assets which have maximum or bullet repayment on maturity.

The securitized debts have a relatively lower liquidity compared to other plain vanilla debt securities. Since we propose to restrict the investments in securitized debt to the extent specified above under respective schemes, we don't envisage any significant liquidity risk.

Securitized debts, typically offer higher yield than debt securities of similar rating and maturity due to the aforementioned additional risks. If the fund manager is of the view that the additional risks are suitably compensated by higher returns, then investments will be made in securitized debts subject to applicable limits.

The Scheme will predominantly invest only in those securitization issuances which have at least an investment grade credit rating indicating low level of risk from the credit risk point of view at the time of making an investment.

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.

The Originator is the entity who has initially given the loan and transferred the receivables to a SPV, The Scheme shall invest in those securitized debts, whose Originator is a Corporate Entity, being a Bank or an NBFC. Before entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

(a) Track record – This is a key parameter that we consider at the time of analyzing the transaction. Originators with long track record of operation lend a greater degree of comfort, as they have a longer operating credit history which can be assessed. The track-record would vary depending on the obligor/ originator. Further the track-record of having undertaken such transactions are also evaluated. Most of the entities which undertake such transactions

in the Indian market have both a long track-record of operations and a history of having undertaken securitization transactions.

(b) Willingness to pay, through credit enhancement facilities etc. – In this case the stand alone credit assessment of the obligor is carried out to indicate the overall financial health. In the case of retail pool securitization transactions, credit enhancement levels offered at the start and the overall utilization levels during the tenor of the transaction is analyzed to reflect the credit comfort and cushion available.

(c) Ability to pay- this is the outcome of the stand-alone credit assessment of the issuer which is arrived after analyzing the income statement and balance sheet of the obligor. This aspect is the key in the case of single loan sell down transactions, since the final repayment is to be made by the obligor and is directly dependent on its overall financial health. This aspect is also usually reflected in the stand-alone credit rating of the company which primarily captures the credit risk i.e the ability to honour financial obligations to lenders in a timely fashion.

(d) Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global) – this forms part of the usual credit assessment and the macro analysis. This will have impact on the business risk of the obligor.

- Outlook for the industry – external risks are analyzed here and their impact on the business risk is analyzed. Opportunities and threats as part of the swot analysis are analyzed.

- Company specific factors – the strengths and weaknesses of the company are critically analyzed here

In addition a detailed review and assessment of rating rationale is done including interactions with the company as well as agency - The latest rating assessment report is studied to understand the key strengths and risks faced by the issuer/obligor. It has been our practice to discuss the rating report with the rating agency in order to understand the finer credit aspects and the impact it could have on the financial health and rating. As part of the due diligence, we also hold discussions with the obligors / originators which help in getting a better insight into their background.

Critical Evaluation Parameters (for pool loan and single loan securitization transactions) regarding the originator / underlying issuer is as follows:

Default track record/ frequent alteration of redemption conditions / covenants – all transaction conditions and covenants are analyzed to examine any flexibility available to the obligor/originator to alter the terms and conditions which can impact the investor position. If any of these conditions are un-favourable, then these are negotiated / altered at the start of the transaction.

High leverage ratios of the ultimate borrower (for single-sell downs) – both on a standalone basis as well on a consolidated level/ group level – financial analysis of balance sheet and income sheet ratios forms critical part of credit analysis, since factors such as gearing will determine both the credit rating as well as debt servicing and final repayment. High gearing also may limit the ability of the obligor to seek additional funding from the market on a timely basis to meet any maturing obligations. Hence this aspect is very crucial in the analysis.

Higher proportion of rescheduling of underlying assets of the pool or loan, as the case may be –we analyze the pool at start to ensure that there are no major rescheduled assets within the pool, since any deterioration of such assets could weaken the pool's overall asset quality and could lead to higher credit enhancement utilization.

Higher proportion of overdue assets of the pool or the underlying loan, as the case may be – quality of the retail pool at start is important as it could have a significant impact on the pool's performance during its tenor.

Poor reputation in market - originators /obligors with poor reputation and/or financial health are usually discarded during our credit evaluation, since asset quality could quickly deteriorate in some cases which could impair debt servicing and repayment. Further, such obligors would also find it difficult to tap the market to raise funds if needed to meet any maturing financial obligations.

Insufficient track record of servicing of the pool or the loan, as the case may be – since we critically assess track-record of operations of the obligor/originator, any shortfall in this parameter would be captured in our analysis. We usually prefer obligors / originators with reasonable operating history since it offers adequate credit history for purpose of credit analysis.

DEBT AND MONEY MARKETS IN INDIA

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporate. Government and public sector enterprises are the predominant borrowers in the markets. Securities in the debt market typically vary based on their tenure and rating. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporate. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities market is the oldest and the largest component of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Sec market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc. The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), reverse repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporate), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI) and similar securities. In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporate. In money market, activity levels of the Government and non government debt vary from time to time.

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. PSU / DFI / Corporate paper with a residual maturity of less than 1 year are actively traded and offer a viable investment option.

Following table exhibits various debt instruments along with current yields as on March 28, 2025:

(Source: Bloomberg and NDS OM)

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme will be actively managed and will aim to identify securities which offer optimal levels of yields/returns, considering risk reward ratio. The scheme will have a minimum investment of 80% of total assets in government securities across maturity and the balance amount can be invested in other debt and money market instruments. Money Market securities include cash and cash equivalents.

The Scheme could invest in fixed income securities issued by central and state government in line with the investment objectives of the Scheme and as permitted by SEBI from time to time.

With the aim of controlling risks, rigorous in depth credit evaluation of the debt and money market securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt. For detailed derivative strategies, please refer to SAI. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees. The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

The scheme may follow certain in-house models using quantitative and fundamental inputs. The model may be developed in order to manage the scheme and to help the scheme attain its investment objective. These models are based on various broad market parameters prevalent in the market and are dynamic in nature.

Derivatives Strategy:

Investment strategy to match the asset allocation pattern of the respective scheme. (Ex: to not include strategy pertaining to derivatives in cases of funds not having exposure to derivatives. If the Scheme intends to invest in derivatives, the strategies associated with investments in derivatives should be disclosed.)

Further, the following disclosures with respect to investment in derivatives be added:

“Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies”.

“The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments”.

The Scheme may use Derivative instruments like interest rate swaps like Overnight Indexed Swaps (“OIS”), forward rate agreements, interest rate futures (as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations. . Investments in Derivatives shall strictly be in compliance with the paragraph 5.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024. Derivatives will be used for the purpose of hedging, and portfolio balancing or such other purpose as may be permitted under the regulations and Guidelines from time to time.

The Fund will be allowed to take exposure in interest rate swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio. In terms of Circular No. MFD.BC.191/07.01.279/1999-2000 andMPD.BC.187/07.01.279/1999-2000 dated November 1, 1999 and July 7, 1999 respectively issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Fund will use Derivative instruments for the purpose of hedging and portfolio balancing. In case of Interest Rate Swaps, the exposure to a single counter-party shall not exceed 10% of the net assets of the scheme.

The Fund may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund.

IRS and FRA do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant Regulations / guidelines. Presently Derivatives shall be used for hedging and / or portfolio balancing purposes, as permitted under the Regulations. The circumstances under which such transactions would be entered into would be when, for example using the IRS route it is possible to generate better returns / meet the objective of the Scheme at a lower cost. e.g. if buying a 2 Yr Mibor based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate, the Scheme would endeavor to do that. Alternatively, the Scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

The following information provides a basic idea as to the nature of the Derivative instruments proposed to be used by the Fund and the benefits and risks attached therewith. Please note that the examples have been given for illustration purposes only.

For detailed derivative strategies, please refer to SAI

Using Overnight Indexed Swaps

In a rising interest rate scenario, the Scheme may enhance returns for the Investor by hedging the risk on its fixed interest paying assets by entering into an OIS contract where the Scheme agrees to pay a fixed interest rate on a specified notional amount, for a predetermined tenor and receives floating interest rate payments on the same notional amount. The fixed returns from the Scheme assets and the fixed interest payments to be made by the Scheme on account of the OIS transaction offset each other and the Scheme benefits on the floating interest payments that it receives. The Scheme may enter into an opposite position in case of a falling interest rate scenario, i.e. to hedge the floating rate assets in its portfolio the Scheme enters into an OIS transaction wherein it receives a fixed interest rate on a specified notional amount for a specified time period and pays a floating interest rate on the same notional amount. The floating interest payments that the Scheme receives on its floating rate securities and the floating interest payments that the Scheme has to pay on account of the OIS transaction offset each other and the Scheme benefits on the fixed interest payments that it receives in such a scenario.

Swap

Let us assume the Scheme holds a fixed rate bond with an interest rate (coupon) of 6.4% p.a. The Scheme can enter into an IRS with another market participant (Counter party) to hedge this risk and convert it into a floating rate instrument.

The following is an illustration of how an Interest rate swap works:

- On 02.01.2025, the Scheme contracts to pay a fixed rate, say 6.4% p.a., and receive a floating rate (say overnight MIBOR).
- This transaction is done for a notional principal amount equal to the value of the investment, say INR 10 crore.
- The counter party pays floating rate (overnight MIBOR) and receives fixed rate, 6.4% p.a.
- Deal tenor is say 3 months i.e. maturity on 02.04.2025.

At the end of the tenor i.e. 02.04.2025, the following exchange will take place:

- The scheme pays at the rate of 6.4% p.a. i.e. $\text{INR } 10 \text{ crore} * 6.4\% * 91/365 = \text{INR } 15,95,616$
- The counter party pays a compounded MIBOR rate for 3 months, say 6.6%, which effectively works out to INR 16,45,479
- In practice, however, the difference of the two amounts is settled. In this case counter party will pay the scheme INR 49,863.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into. The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable regulations from time to time.

Forward Rate Agreement

A FRA is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs

The instrument in which scheme wishes to invest is a 91-day Treasury Bill at 6.5% p.a., therefore, enters into an agreement where he sells a 2 x 5 FRA for a notional principal amount.

2 represent the start date of the FRA and 5 represents the maturity date or end date.

The details will be as under:

Asset: 91-day T' Bill

Tenor: 3 months commencing from 2 months from date of agreement.

Indicative 2 x 5: 6.5% p.a.

Benchmark: 91-day T' Bill cut-off yield on the last auction preceding settlement date

So, the scheme shall receive 6.5% p.a. on the notional amount on settlement date. Counterparty will receive 91-day T' Bill cut-off rate on the 91-day T' Bill auction, on the auction just preceding the settlement date.

Interest Rate Futures

If the Fund Manager is of the view that the interest rates will go down the Fund Manager will buy IRF to participate in appreciation.

The scheme holds 6.79% GS 2034 expects that the interest rate will go up and intends to take hedge position.

Accordingly, the fund manager shall buy IRF –

- Trade Date – January 1, 2025
- Futures Delivery date – April 1, 2025
- Current Futures Price - Rs. 100.05
- Futures Bond Yield- 6.782%
- Scheme sells 100 lots of the April 2025 10 Year futures contract of face value of Rs.2000 on NSE on January 1, 2025 at Rs. 100.05

Closing out the Position

- Date: January 27, 2025
- Futures market Price – Rs. 99.75
- Scheme buys 100 lots of April 2025 10 year futures contract of face value of Rs.2000 at Rs. 99.75 and squares off his position
- Therefore total profit for scheme $100 * 2000 * (100.05 - 99.75)$ is Rs.60000

Investment Decision making process:

The Fund Managers shall take a view on the broad direction of the markets including interest rate outlook. Fund Managers shall have the responsibility of individual security analysis, while the dealers shall execute the trading mandates with a view to obtaining the best execution in terms of price and quantity. The Fund Managers, while buying / selling securities for a particular scheme shall take into account the following main factors:

1. Interest Rate Outlook
2. Compliance with SEBI Guidelines

3. Risk Management Guidelines
4. Yield to Maturity of the instrument
5. Yield curve analysis
6. Liquidity of the instrument
7. Credit Rating
8. Credit spreads

Credit Research and Monitoring of Money Market and Debt Instruments:

The investment team will look at each issue in detail; the following broad framework shall help the team in managing the funds. Following are the key aspects of the process:

1. Creation and Maintenance of an Investment Universe
2. In-house credit appraisal
3. Tier system of monitoring
4. Exposure Norms

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

As per AMFI Tier I benchmark
CRISIL Dynamic Gilt Index

The Scheme intends to invest in a portfolio of instruments which is best captured by CRISIL Dynamic Gilt Index. The composition of the benchmark is in line with the intended asset allocation of the fund. Hence, the benchmark Index is an appropriate benchmark for the scheme.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to SEBI Mutual Fund Regulations, 1996 and circulars issued by SEBI from time to time.

E. WHO MANAGES THE SCHEME?

Details of the Fund Manager’s experience and qualifications are as under:

Name of the Fund Manager	Age	Education Qualification	Experience	Other Schemes managed by the Fund Manager
Mr. Kaustubh Sule (Senior – Fund Manager)	40	B.E.(Computer) MBA(Finance)	Mr. Kaustubh has worked in Fixed Income trading and portfolio management for almost 14 years and 3 years in the IT industry as a software engineer. He has worked with Hexaware Technologies, Union Bank of India, Reliance Life insurance, HDFC Life insurance. He was working with Axis Asset Management Company as Fund Manager-Fixed Income before joining Groww.	<ul style="list-style-type: none"> • Groww Overnight Fund • Groww Liquid Fund • Groww Dynamic Bond Fund • Groww Nifty 1D Rate Liquid ETF • Groww Aggressive Hybrid Fund • Groww Short Duration Fund

G. HOW HAS THE SCHEME PERFORMED

This scheme is a new scheme and does not have any performance track record.

H. ADDITIONAL SCHEME RELATED DISCLOSURES

- i. Investor can view Scheme's portfolio holdings on - NA
- ii. Disclosure of name and exposure to Top 7 issuers, stocks, groups and sectors as a percentage of NAV of the scheme in case of debt and equity ETFs/index funds through a functional website link that contains detailed description – NA
- iii. Functional website link for Portfolio Disclosure - Fortnightly / Monthly/ Half Yearly - <https://www.growwmf.in/statutory-disclosure/portfolio> and <https://www.growwmf.in/financials/half-yearly-unaudited>
- iv. Portfolio Turnover Rate particularly for equity oriented schemes shall also be disclosed - NA
- v. Aggregate investment in the Scheme by:

Sr. No.	Category of Persons	Net Value		Market Value (in Rs)
1.	Concerned scheme's Fund Manager(s)	Units	NAV per unit	
	NA			

For any other disclosure w.r.t investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer SAI.

The above disclosures are not applicable since this scheme is a new scheme and does not contain any details.

vi. Investments of AMC in the Scheme –

Subject to the Regulations, the AMC may invest either directly or indirectly, in the Scheme during the NFO and/or Ongoing Offer Period. However, the AMC shall not charge any investment management fee on such investment in the Scheme.

Please refer to <https://www.growwmf.in/statutory-disclosure/alignment-of-interest> for details

- Risk-o-meter shall be evaluated on a monthly basis and the Risk-o-meter shall be disclosed along with portfolio disclosure on GMF website and on AMFI website within 10 days from the close of each month.
- Scheme Summary Document (SSD) shall be updated on a Monthly basis or on changes in any specified fields, whichever is earlier. The same shall be uploaded on websites of GMF, AMFI and stock exchanges.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of a mutual fund is the price at which units of a mutual fund are bought or sold. It is the market value of the fund after deducting its liabilities. The value of all units of a mutual fund portfolio are calculated on a daily basis, from this all expenses are then subtracted. The result is then divided by the total number of units the resultant value is the NAV. NAV is also sometimes referred to as Net Book Value or book Value.

Calculation of NAV Mutual fund assets usually fall under two categories – securities & cash. Securities, here, include both bonds and stocks. Therefore, the total asset value of a fund will include its stocks, cash and bonds at market value. IDCWs and interest accrued and liquid assets are also included in total assets. Also, liabilities like money owed to creditors, and other expenses accrued are also included. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

Formula to calculate Net Asset Value (NAV) = (Assets – Debts) / (Number of Outstanding units)

Here: Assets = Market value of mutual fund investments + Receivables + Accrued Income
Debts = Liabilities + Expenses (accrued) the market value of the stocks & debentures.

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan/Option. The NAVs of the Growth Option and the IDCW Option will be different after the declaration of the first IDCW.

The AMC will calculate and disclose the first NAV of the Scheme within a period of 5 business days from the date of allotment. Subsequently, the NAVs will be calculated for all the Business Days.

Rounding off policy for NAV:

To ensure uniformity, the Mutual Fund shall round off NAVs up to four decimal places & the fourth decimal will be rounded off to the next higher digit if the fifth decimal is or more than 5 i.e., if the NAV is 10.13576 it will be rounded off to 10.1358.

However, there can be no assurance that the investment objective of the scheme will be achieved.

Sale Price:

Sale price is a price at which the fund house sells / offers mutual fund units to investors; this is nothing but the NAV of the respective Scheme of Mutual Fund. For investor who wants to invest in Mutual Fund, the units are offered at NAV of the respective Scheme of Mutual Fund.

For Example – If investor A wants to invest Rs. 5,000/- in XYZ Scheme of Mutual Fund. The NAV of Mutual Fund Scheme XYZ is Rs. 15 per unit. Investor's Investments & Mutual Fund unit allocation in Scheme XYZ is calculated as follows:-

Investment of Investor A = Investment Amount / Sale Price
= 5,000 / 15
= 333.3333 units

This means investor A will be allocated **333.3333 units** of Mutual Fund Scheme XYZ.

Repurchase Price:

Repurchase price is a price at which fund house repurchases the mutual fund units back from the investor. For investor who wants to redeem his mutual fund units, the units are repurchased at respective scheme NAV less Exit Load (If Applicable)

For Example - If Mutual Fund Scheme XYZ is having NAV of Rs. 15 & Exit Load of 1% then the repurchase price would be calculated as follow:

$$\begin{aligned} \text{Repurchase Price} &= \text{NAV} * (1 - \text{Exit Load } \%) \\ &= 15 * (1 - 0.01) \\ &= 14.8500 \end{aligned}$$

This means the investor will realise **Rs. 14.8500** per unit if he redeems from Mutual Fund Scheme XYZ. In case of no exit load the NAV & repurchase price are same.

The repurchase price of an open ended scheme shall not be lower than 95% of the NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. NFO expenses will be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.00% of the daily average net assets of the scheme will be charged to the scheme as expenses (Give slab wise break up depending on the assets under management. Give plan/option wise break up if the expense structures are different). For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Expense Head	% p.a. of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 2.00%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	

Cost towards investor education & awareness	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI MF Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c)	Upto 2.00%
Additional expenses under Regulations 52(6A)(c)	Upto 0.05%
Additional expenses for gross new inflows from specified cities**	Upto 0.30%

*Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

**SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023, and AMFI letter dated No. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance till further notice.

In terms of paragraph 10.1.16 of SEBI Master Circular for Mutual Funds dated June 27, 2024, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e., 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards the same expense heads. However, as per Para 10.1.7 of SEBI Master Circular for Mutual Funds dated June 27, 2024, in case of all schemes, wherein exit load is not levied / not applicable, the AMC will not be eligible to charge the above mentioned additional expenses for such schemes.

Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, not exceeding 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Thus, in terms of paragraph 10.1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024, it is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 per cent of the value of trades of cash market transactions and 0.05 per cent of the value of trades of derivative market transactions. Any payment towards brokerage and transaction costs (including Goods & Services Tax, if any) incurred for the execution of trades, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent of the value of trades of derivative market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations.

As per the Regulations, the total recurring expenses that can be charged to the Scheme in this Scheme information document shall be subject to the applicable guidelines. The total recurring expenses of the Scheme will however be limited to the ceilings as prescribed under Regulation 52(6) of the Regulations.

*Impact of TER on returns of both Direct plan and Regular plan through an illustration may be provided.

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the scheme (including expenses charged). Expenses charged to the scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Illustration:

If the scheme's gross of expenses NAV goes up by 15% over 1 year (for example from 10 to 11.5), and the expense charged for the scheme over that year is 2% of the initial NAV (0.2), the NAV of scheme (net of expenses) at the end of 1 year will come down to 11.3 (11.5 less 0.2) and therefore the net of expenses return for the investor will be 13%.

*Impact of TER on returns of both Direct plan and Regular plan as an illustration:

Particulars	Regular Plan	Direct Plan
Amount invested at the beginning of the year (Rs.)	10,000	10,000
Returns before Expenses (Rs.)	1,500	1,500
Expenses other than Distribution Expenses (Rs.)	150	150
Distribution Expenses (Rs.)	50	-
Returns after Expenses at the end of the year (Rs.)	1,300	1,350
Returns (%)	13.00%	13.50%

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.growwmf.in/downloads/fact-sheet>) or may call at (toll free no. 80501 80222.) or your distributor.

Type of Load	Load Chargeable (as % of NAV)
Exit Load	Nil

The Trustee reserves the right to modify/alter the load structure and may decide to charge on the Units with prospective effect, subject to the maximum limits as prescribed under the SEBI Regulations. At the time of changing the load structure, the AMC shall take the following steps:

- Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all the Groww Mutual Fund's ISCs' and distributors' offices and on the website of the AMC.
- The notice-cum-addendum detailing the changes shall be attached to SIDs and Key Information Memoranda. The addendum will be circulated to all the distributors so that the same can be attached to all SIDs and Key Information Memoranda already in stock.
- The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measures which the mutual funds may feel necessary.

The AMC may change the load from time to time and in case of an exit/repurchase load this may be linked to the period of holding. It may be noted that any such change in the load structure shall be applicable on prospective investment only. The exit load (net off GST, if any, payable in respect of the same) shall be credited to the Scheme of the Fund. The distributors should disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.

I. INTRODUCTION

A. Definitions/interpretation

For detailed description please click the link: <https://www.growwmf.in/downloads/sid>

B. Risk factors

Scheme Specific Risk Factors

The following are the risks associated with investment in Fixed Income securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is at low risk. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different low levels of risk and a bond rated higher by a particular rating agency is at lower risk than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risk Associated with Securitized Debt

The Scheme may invest in domestic securitized debt such as Asset Backed Securities (“ABS”) or Mortgage Backed Securities (“MBS”). ABS are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. MBS are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties.

At present in Indian market, following types of loans are securitized:

1. Auto Loans (cars / commercial vehicles /two wheelers)
2. Residential Mortgages or Housing Loans
3. Consumer Durable Loans
4. Personal Loans
5. Corporate Loans

In terms of specific risks attached to securitization, each asset class would have different underlying risks. Residential Mortgages generally have lower default rates than other asset classes, but repossession becomes difficult. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Asset classes like personal loans, credit card receivables are unsecured and in an economic downturn may witness higher default.

The rating agency defines margins, over collateralization and guarantees to bring risk in line with similar AAA rated securities. The factors typically analyzed for any pool are as follows:

- a. Assets securitized and Size of the loan: This indicates the kind of assets financed with the loan and the average ticket size of the loan. A very low ticket size might mean more costs in originating and servicing of the assets.
- b. Diversification: Diversification across geographical boundaries and ticket sizes might result in lower delinquency.
- c. Loan to Value Ratio: Indicates how much % value of the asset is financed by borrowers own equity. The lower this value the better it is. This suggests that where the borrowers own contribution of the asset cost is high; the chances of default are lower.
- d. Average seasoning of the pool: This indicates whether borrowers have already displayed repayment discipline. The higher the number, the more superior it is.

The other main risks pertaining to Securitized debt are as follows:

Prepayment Risk: This arises when the borrower pays off the loan sooner than expected. When interest rates decline, borrowers tend to pay off high interest loans with money borrowed at a lower interest rate, which shortens the average maturity of ABS. However, there is some prepayment risk even if interest rates rise, such as when an owner pays off a mortgage when the house is sold or an auto loan is paid off when the car is sold.

Reinvestment Risk: Since prepayment risk increases when interest rates decline, this also introduces reinvestment risk, which is the risk that the principal can only be reinvested at a lower rate.

Risks associated with Derivatives Transactions

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate Risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a bond is hedged using a Derivative, the change in price of the bond and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity Risk: During the life of the Derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones, the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risks associated with overseas investment

To the extent the assets of the scheme are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilisation of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

Currency Risk: The fund may invest in overseas mutual fund / foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes/fluctuations in the value of the foreign currencies relative to the Indian Rupee.

Country Risk: The Country risk arises from the inability of a country, to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country, which might adversely affect foreign investors' financial interests.

Risk associated with Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure

of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Risk factors associated with repo transactions in corporate bonds

The market for the aforesaid product is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties. If counterparty fails, the scheme would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Scheme would be exposed to a loss of interest or principal.

Further, the exposure to debt securities provided as collateral, and the issuer of the debt securities makes a default, the scheme may lose the whole, or substantial portion of the amount.

Potential Risk Matrix:

The Potential Risk Class Matrix reflects the maximum risk fund manager can take in the scheme in terms of maximum interest rate risk (measured by Macaulay duration of scheme) and maximum credit risk (measured by Credit Risk value of the scheme). The threshold for values of interest rate risk & credit risk would determine the maximum risk the scheme can take.

- I. Maximum Weighted Average Interest Rate Risk of the scheme (measured in terms of Macaulay Duration):
 1. Class I: MD \leq 1 year;
 2. Class II: MD \leq 3 years;
 3. Class III: Any Macaulay duration
- ii. Maximum Weighted Average Credit Risk of the scheme (measured in terms of Credit Risk Value assigned to each security in portfolio):
 1. Class A: CRV \geq 12
 2. Class B: CRV \geq 10
 3. Class C: CRV
- **Stress Testing:**

Stress testing in open-ended debt schemes addresses the asset side risk from an Interest Rate Risk, Credit Risk & Liquidity Risk perspective at an aggregate portfolio level in terms of its impact on Net Asset Value of the scheme. The AMC conducts Stress testing for all open-ended debt schemes (except overnight Fund) on a fortnightly basis. The model portfolio for each category of fund is defined. In case the stress in the actual portfolio is greater than stress in model portfolio then corrective action is taken within the defined timeline.
- **Asset Liability Mismatch:**

The AMC monitors the Asset Liability Mismatch (ALM) requirement which address potential liquidity risk. The liability side covers all possible outflow scenarios with a 95% confidence interval over 90 days period. The asset side is rigoured based on Risk-o-meter liquidity scores in an exponential manner, to penalize assets with higher Risk-o-meter scores more than proportionately. With the above liquidity management tools, the redemption risk in the scheme can be addressed to a certain extent

C. Risk mitigation strategies

(a) Size and reach of the originator – different originators have varying levels of reach and access. Besides, different originators operate in different geographies and consumer segments. Also the asset classes that they originate could be different depending on their target profitability, risk tolerance levels and support infrastructure for disbursing loans and making recoveries and collections. We usually look for originators possessing fair degree of diversification in their operation (metros/ semi urban and rural markets), asset classes (collateralized assets are preferred such as cars, commercial vehicles, construction equipment etc.) and with a fairly robust collection infrastructure. Most of the regular names that we invest comply with these requirements.

(b) Collection process, infrastructure and follow-up mechanism – we usually prefer originators who possess in-house capabilities and infrastructure as regards disbursements, collections and recoveries since it has been historically proven that such entities usually exhibit better asset quality in the long run. Most of the originators in our universe fall in this category.

(c) Quality of MIS – data quality and timely availability is critical in the asset financing business. We stress on this aspect and look for entities which have robust MIS and have networked branches so that MIS generation is faster, efficient and senior management is in a position to take timely decisions.

(d) Credit enhancement for different type of originator – this varies between originators and is usually determined and specified by the originator. The rating agency usually established the base case losses for the originator and for the specific asset category and then applies a stress factor depending on their own assessment of the originators financial health, and other strengths and weaknesses as also the prevailing macroeconomic factors which can impact overall asset quality.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

Following framework will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/ Type of Pool	Mortgage Loan#	CV & CE	Cars	2 Wheelers	Micro Finance Pools @	Personal Loans	Single Sell Downs
Approximate Average maturity (in Months)*	36-72	12-30	12-30	12-18	3-15	12-24	12-24
Collateral margin (including cash guarantees, excess interest spread, subordinate tranche)	Min : 10	5-25	5-25	Min : 15	Min : 10	Min : 15	-
Average Loan to Value Ratio (%)	70-90	65-85	65-85	50-75	60-85	NA	-
Average seasoning of the Pool (months)	6-12	3-6	3-6	3-6	1-3	3-6	-

Maximum single exposure range%	5-15	5-15	5-15	5-10	5-15	5-10	5-15
Average single exposure range %	10	10	10	7.5	10	7.5	10

1. Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions.
2. Also since most of the transactions are composite in nature i.e. they have more than one asset class the actual cash level would be finalized based on the final mix.
3. Mortgage loans are usually not clubbed with other asset classes since the average tenors are different for these asset classes. Hence mortgage loan pools are usually issued separately. Hence we have indicated 15 % under this asset class.
4. Micro finance pools are also issued separately and not clubbed with other asset classes. Hence we have indicated 15% under Micro Finance pools under maximum exposure.
5. The percentages indicated in the table above is with reference to investments in securitized debt instruments, subject to investment restrictions as per the regulations.
6. The scheme shall invest in securitized debt instruments maturing on or before the maturity of the scheme.

CV: Commercial Vehicles

CE: Construction Equipment

- a) Size of the loan – the overall fund raising plan of the obligor / originator is examined to assess the impact it would have on overall gearing and debt servicing
- b) Average original maturity of the pool –This is also important from a point of indicating how quickly the pool will liquidate as the underlying assets mature and pay-off. This parameter would impact interest rate sensitivity of the security.
- c) Loan to Value Ratio – the LTV varies from issuer to issuer and also within asset classes. Based on our past experience and empirical data, we examine the LTV levels, since these have a critical link to the final recoveries in the case of default.
- d) Average seasoning of the pool - this may also vary between originators. Higher seasoning at the start will offer better visibility on future delinquencies. Pools with higher average seasoning which depict low delinquencies usually tend to have satisfactory asset quality over the life of the transaction. We prefer to invest in pools which have average seasoning of at least 3-4 months at the start since any early delinquencies can be removed at the time of pool finalization.
- e) Default rate distribution – this is studied using empirical data for the originator. This is also a critical data used by the rating agency in determining the credit enhancement levels to be stipulated.
- f) Geographical Distribution – all pools usually have assets which are geographically diversified, since this reduces the default risk.
- g) Credit enhancement facility – very critical especially in the case of retail pools since delinquencies and final asset losses are absorbed using cash so that there is no shortfall in investor servicing.
- h) Liquid facility – in some cases in addition to the credit enhancement facility there is also a liquidity facility available which is useful to meet any shortfalls arising from delayed collections (delinquencies) in

the pool. If an explicit liquidity facility is not provided in the transaction, then the credit enhancement facility is used for the said purpose. Note however that the liquidity facility is only available to be used for standard assets i.e. assets wherein the days past due do not exceed 90.

i) Structure of the pool – we will invest in both single loan securitization transactions and retail pool securitization transactions. Single loan securitization transactions will essentially be loans which are repackaged as pass through certificates (PTCs) and sold to potential investors. These may be collateralized i.e. backed by certain fixed assets of the issuers. In the case of retail pool securitization transactions, we will have underlying retail loans from various asset classes such as cars, CVs, construction equipment etc.

The above framework including the above mentioned risk mitigating measures will be applied at the time of analyzing pool PTC transactions. In the case of composite PTC pools i.e. pools with more than one asset class, each of the asset categories will be assessed separately in order to arrive at the overall risk profile of the composite pool.

5. Minimum retention period of the debt by originator prior to securitization

There is usually no stipulation on the minimum retention period of debt by the originator in the case of single loan PTCs. We follow usual investment guidelines in evaluating the eligibility of the security for our portfolios. This is in compliance with extant regulations on securitization.

In the case of ABS securities (pool PTCs), assets are usually sold down by the originators after a period of 1-2 months from their date of origination. This helps in identifying any delinquencies in these assets and creating a high quality pool.

RBI governs the issuance of securitized debts in India. It has formulated guidelines for minimum retention period. Depending on the tenor of the securitized assets and the type of repayment schedule viz. periodic repayment or bullet repayment, nine or twelve months have been prescribed as the minimum retention period before the assets can be securitised.

6. Minimum retention percentage by originator of debts to be securitized

Our investment decisions are based on our independent assessment of the credit risk/other risks specific to the transaction. Minimum retention percentage of the debt securitized by the originator is usually not stipulated.

RBI has prescribed the minimum retention percentage as 5% or 10% of the book value of the loans being securitised depending on the original maturity of the loans and the features of the securitisation transaction.

7. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

All investment decisions are led by stand-alone assessments of the securities (PTC) from a credit, liquidity and market risks amongst others. Our internal process and reporting platforms are designed to ensure complete independence of the credit research & investment process from sales business.

8. In general, the resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The fund management team has the required experience to analyse and monitor investments in securitised debts. On an on-going basis the rating movement of the securitised debts will be monitored. Credit research agencies also provide analysis of individual instruments and pools. The periodic reports received by the AMC on pool performance will be scanned to check for any change in asset quality and related impact on debt servicing and any impact that it can have on the credit ratings.

II. INFORMATION ABOUT THE SCHEME:

A. Where will the scheme invest –

Detailed description of the instruments mentioned in Section I

B. What are the investment restrictions?

1) A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPS. Provided further that investment within such limit can be made in mortgaged backed securitized debt which are rated not below investment grade by a credit rating agency registered with SEBI.

Further, in accordance with the In accordance with paragraph 12.8.3.1 of SEBI Master Circular for Mutual Funds dated June 27, 2024as amended from time to time, the scheme shall not invest more than

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit

Provided that such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowing and lending obligations.

2) The Scheme shall not invest more than 10% of its NAV in un-rated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Trustee and Board of AMC.

3) The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund (restricted to only debt and liquid funds) without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

4) The scheme shall not make any investment in

- i) Any unlisted security of an associate or group company of the sponsor
- ii) Any security issued by way of private placement by an associate or group company of the sponsor; or
- iii) The listed securities of group companies of the sponsor which in excess of 25% of net assets.

5) The Mutual Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.

6) Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:

- i) such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
- ii) the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
- iii) IST purchases would be allowed subject to guidelines as specified in accordance with paragraph 12.30 of SEBI Master Circular for Mutual Funds dated June 27, 2024

7) The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

8) The Mutual Fund may enter into Derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

9) The sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

10) The Scheme shall not make any investment in any fund of funds scheme.

11) Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, In accordance with paragraph 12.16 of SEBI Master Circular for Mutual Funds dated June 27, 2024 as may be amended from time to time:

11.1. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

11.2. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.

11.3. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.

11.4. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.

11.5. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.

11.6. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and Derivatives market.

12) The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of Repurchase/Redemption of Unit or payment of interest and/or IDCW to the Unit holder. The Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

13) In accordance with paragraph 12.9 of SEBI Master Circular for Mutual Funds dated June 27, 2024, the total exposure of debt schemes in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, TBills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme.

Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme.

For the purpose of identifying sector, AMFI sector definitions shall be referred to. For unlisted / non traded securities, where sector classification does not exist, AMC will have the discretion to decide the classification as per their best judgment.

14) The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

- Provided that the Scheme may invest in unlisted nonconvertible debentures up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time.
- Provided further that the Scheme shall comply with the norms under the above clauses within the time and in the manner as may be specified by SEBI.
- Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by SEBI from time to time.

As per these norms, investments in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall not exceed 5% of net assets of the Scheme.

Further, the Scheme shall comply with provisions of paragraph 12.1 of SEBI Master Circular for Mutual Funds dated June 27, 2024 regarding investment in Debt and Money Market Instruments, as amended from time to time, to the extent applicable to the Scheme.

15) The Scheme shall invest in Debt instruments having Structured Obligations/ Credit Enhancements in accordance with provisions of paragraph 12.3 of SEBI Master Circular for Mutual Funds dated June 27, 2024 as may be amended by SEBI from time to time. The same are currently as under:

The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:

- a. Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and
- b. Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.

For this purpose, a group means a group as defined under regulation 2 (mm) of the Regulations and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

However, the above Investment limits shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitized Debt Instruments) Regulations 2008.

Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

16) The Scheme shall not invest more than 20% of its net assets in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks). Such investment limit may be extended to 25% of the net assets of the Scheme with the prior approval of the Trustees.

Provided that investments by the Scheme in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the Scheme. Such investment limit may be extended to 15% of the net assets of the Scheme with prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of the Regulations and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

The Schemes will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

All the investment restrictions will be applicable at the time of making investments.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-a-vis limiting exposure to a particular scrip or sector etc.

AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

Bank Mandate	<p>In case of those unit holders, who hold units in demat form, the bank mandate available with the respective DP will be treated as the valid bank mandate for the purpose of payout at the time of redemption. In view of the above, Multiple Bank Mandate registration facilities with the AMC will not be applicable to Demat account holders</p>
Delay in payment of redemption / repurchase proceeds/dividend	<p>The Asset Management Company shall be liable to pay interest to the unitholders at rate as specified vide clause 14.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024 by SEBI for the period of such delay</p>
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount	<p>As per the Clause 14.3 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, the unclaimed Redemption and dividend amounts shall be deployed by the Fund in call money market or money market instruments and in a separate plan of Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points.</p> <p>The AMCs shall not be permitted to charge any exit load in this plan. Provided that such schemes where the unclaimed redemption and IDCW amounts are deployed shall be only those Overnight scheme/ Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix. The investors who claim these amounts during a period of three years from the due date shall be paid at the prevailing NAV. After a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year. In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts. The website of Groww Mutual Fund also provides information on the process of claiming the unclaimed amount and the necessary forms / documents required for the same. The details of such unclaimed amounts are also disclosed in the annual report sent to the Unit Holders.</p> <p>Important Note: All applicants must provide a bank name, bank</p>

	account number, branch address, and account type in the Application Form.
Disclosure w.r.t investment by minors	<p>As per Para 17.6 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 read with SEBI Circular dated May 12, 2023, the following Process for Investments in the name of a Minor through a Guardian will be applicable:</p> <p>a. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. For existing folios, the AMCs shall insist upon a Change of Pay-out Bank mandate before redemption is processed.</p> <p>b. Redemption proceeds shall be credited only in verified bank account of the minor, i.e the account the minor may hold with the parent/legal guardian after completing KYC formalities.</p> <p>c. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions shall be allowed till the status of the minor is changed to major.</p> <p>d. AMCs shall build a system control at the account set up stage of Systematic Investment Plan (SIP), Systematic Transfer Plan (STP) and Systematic Withdrawal Plan (SWP) on the basis of which, the standing instruction is suspended when the minor attains majority, till the status is changed to major. Please refer SAI for detailed process on investments made in the name of a Minor through a Guardian and Transmission of Units.</p>

D. Transaction Charges

Transaction charges shall not be deducted for:

- Purchases /subscriptions for an amount less than Rs. 10,000/-; and
- Transactions other than purchases/ subscriptions relating to new inflows such as Switches, etc.
- Any purchase/subscription made directly with the Fund (i.e. not through any distributor).
- Transactions carried out through the stock exchange platforms.

Applicability of Stamp Duty : Pursuant to Notification No. S. O. 1226 (E) and G.S.R 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value shall be levied on applicable mutual fund transactions. Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase transactions to the unitholders would be reduced to that extent. The stamp duty will be deducted from the net investment amount i.e. gross investment amount less any other deduction like transaction charge. Units will be created only for the balance amount i.e. Net Investment Amount as reduced by the stamp duty. The stamp duty will be computed at the rate of 0.005% on an inclusive method basis.

For instance: If the transaction amount is Rs. 100100 /- and the transaction charge is Rs. 100, the stamp duty will be calculated as follows: $((\text{Transaction Amount} - \text{Transaction Charge}) * 0.005\%) = \text{Rs.5}$. If the applicable Net Asset Value (NAV) is Rs. 10 per unit, then units allotted will be calculated as follows: $(\text{Transaction Amount} - \text{Transaction Charge} - \text{Stamp Duty}) / \text{Applicable NAV} = 9,999.50$ units.
