Part I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I.	Name of the scheme	Groww Nifty Cement ETF
II.	Category of the Scheme	Other Schemes - Exchange Traded Fund (ETF)
III.	Scheme type	An open-ended scheme tracking the Nifty Cement Index - TRI
IV.	Scheme code	GROW/O/O/EET/26/06/0064
V.	Investment objective	The investment objective of the Scheme is to generate long-term capital growth by investing in securities of the Nifty Cement Index in the same proportion/weightage with an aim to provide returns before expenses that track the total return of the Nifty Cement Index, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the scheme will be achieved.
VI.	Liquidity details:	<p>On the Exchange - The Units of the ETF will be listed on National Stock Exchange of India Ltd (NSE) and/or any other recognised stock exchanges as may be decided by the AMC from time to time.</p> <p>All investors including Market Makers and Large Investors can subscribe (buy) / redeem (sell) Units of the Scheme on a continuous basis on the NSE on which the Units are listed during the trading hours on all the trading days. The Units of the Scheme may be bought or sold on all trading days at prevailing listed price on such Stock Exchange(s).</p> <p>Directly with the Fund- Alternatively, the Market Makers may subscribe to and/or redeem the units of the Scheme with the Mutual Fund on any business day during the ongoing offer period commencing not later than 5(five) business days from the date of allotment at approximately indicative NAV based prices (along with applicable charges and execution variations) for applications directly received at AMC, provided the units offered for subscription and/or redemption are not less than Creation Unit size & in multiples thereof.</p> <p>Large investors can subscribe/redeem directly with the AMC for an amount greater than 25 crores. The price of Units of the Scheme in the secondary market on the Stock Exchange(s) will depend on demand and supply at that point of time. There is no minimum trade amount, although Units are normally traded in round lots of 1 Unit.</p> <p>In addition, Market Makers can directly subscribe to/ redeem Units of the Scheme on all Business Days with the Fund in 'Creation Unit Size' and Large investors can subscribe to/ redeem Units of the Scheme for an amount greater than 25 crores on all Business Days on an ongoing basis. The aforesaid limit of Rs.25 crores is not applicable for Market Makers. Market Makers / Large Investors may exchange Portfolio Deposit / cash equivalent to the portfolio deposit and applicable cash component and</p>

	<p>Listing details:</p>	<p>transaction handling charges for Purchase / Redemption of Units of the Scheme in ‘Creation Unit’ size or in multiples thereof directly from the Mutual Fund, as defined by the Scheme for that respective Business Day.</p> <p>The AMC will appoint atleast two Market Maker(s) who are members of the Stock Exchanges to provide for continuous liquidity in secondary market on an ongoing basis. The Market Maker(s) would offer two-way quotes (buy and sell quotes) in the secondary market for ensuring liquidity in the Units of the Scheme.</p> <p>The list of Market Makers will be updated on our website. https://www.growwmf.in</p> <p>Unit holdings in less than the Creation Unit size can normally only be sold through the secondary market, except in situations mentioned under ‘Exit opportunity in case of ETF for investors other than Market Makers and Large Investors’ in the SID.</p> <p>Depending on the market volatility, liquidity conditions and any other factors, the AMC may, at its sole discretion, subject to SEBI regulations decide to accept subscription/redeem Units of the Scheme either in “Cash”, “in kind”/Portfolio Deposit (through slice of the entire Portfolio excluding GSec, TREPS and Repo in Government Securities) or the combination of both.</p> <p>The Mutual Fund may at its sole discretion (subject to SEBI regulations) list the Units of the Scheme on any other recognized Stock Exchange(s) at a later date.</p> <p>Subject to SEBI Regulations, the AMC/Trustee reserves the right to delist the Units of the Scheme from a particular stock exchange provided the Units are listed on at least one stock exchange.</p>
<p>VII.</p>	<p>Benchmark (Total Return Index)</p>	<p>Nifty Cement Index TRI</p> <p>The Trustees have adopted Nifty Cement Index TRI as the benchmark index.</p> <p>As per its investment objective, the investment would primarily be in Securities which are constituents of the benchmark index. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.</p> <p>Second Tier Benchmark- Not Applicable</p>
<p>VIII.</p>	<p>NAV disclosure</p>	<p>The AMC will calculate and disclose the first NAVs of the Scheme not later than 5 Business Days from the date of allotment of units under the NFO.</p> <p>The AMC shall update the NAVs on the website of the Mutual Fund https://www.growwmf.in/nav and on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 11.00 p.m. on every Business Day.</p> <p>Indicative NAV (iNAV):</p> <p>Indicative NAV (iNAV) is the per unit NAV based on the current market value of Scheme’s portfolio during the trading hours of the ETF. Indicative NAV shall be disclosed on Stock exchange(s), where the units</p>

		will be listed, on continuous basis within a maximum time lag of 15 seconds from underlying market Further Details in Section II.

- The Scheme shall not undertake short selling

The Scheme may also use various derivative products from time to time in a manner permitted by SEBI to reduce the risk of the portfolio as and when the fund manager is of the view that it is in the best interest of the unit holders. The exposure of the scheme to derivatives will be upto 20% of net assets.

The cumulative gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme in accordance with Clause 13.18 of Master Circular of Mutual Fund.

Pursuant to Para 8.5, 13.15 and 13.16 of SEBI Master circular dated March 20, 2026 and as may be amended from time to time, The Scheme may take an exposure to equity derivatives of constituents or index derivatives

of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted subject to rebalancing within 7 calendar days (or as specified by SEBI from time to time). The equity derivative exposure of scheme for non-hedging purposes shall be up to 20% of equity and equity related Securities of the scheme.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

In accordance with Clause 4.3 of Master Circular of Mutual Fund the underlying index shall comply with the portfolio concentration norms as prescribed.

Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the Regulations from time to time).

The debt securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, unrated among others, as permitted by regulation. Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of Clause 13.7 of Master Circular of Mutual Fund.

Further, the Scheme may, for meeting liquidity requirements invest in units of money market/liquid schemes of Groww Mutual Fund and/or any other mutual fund provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund in accordance with Clause 4 of Seventh Schedule of SEBI (MF) Regulations. The AMC shall not charge any investment management fees with respect to such investment.

Investments in Scheme by AMC, Sponsor & Associates

Subject to the Regulations, the AMC and investment companies managed by the Sponsor(s), their associate companies and subsidiaries may invest either directly or indirectly, in the Scheme during the NFO and/or on ongoing basis. However, the AMC shall not charge any investment management fee on such investment in the Scheme, in accordance with sub-regulation 3 of Regulation 21 of the Regulations and shall charge fees on such amounts in future only if the SEBI(MF) Regulations so permit. The associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of the Scheme's units and collectively constitute a major investment in the Schemes. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and required by applicable SEBI regulations. In terms of SEBI notification dated August 5, 2021 and as per Regulation 22, sub-regulation 3(a) of SEBI(MF) Regulations, the asset management company shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by the Board from time to time. In case of NFO, AMC's investment shall be made during the allotment of units and shall be calculated as a percentage of the final allotment value excluding AMC's investment pursuant to this circular.

Timelines for deployment of funds collected in NFO

As per clause 7.24.1 of SEBI Master circular, the AMC shall aim to deploy the funds garnered during the NFO within 30 business days from the date of allotment of units.

In an exceptional case, if the AMC is not able to deploy the funds within 30 business days as per the scheme's asset allocation, reasons in writing, including details of efforts made to deploy the funds, will be placed before the Investment Committee. The Investment Committee, after examining the root cause for delay in deployment, may extend the timeline by 30 business days. Further, in case the funds are not deployed within the aforementioned mandated plus extended timelines, the AMC shall comply with the prescribed restrictions, the reporting and disclosure requirements as prescribed.

Rebalancing due to passive breach

In accordance with Clause 4.5.5 of Master Circular of Mutual Fund in case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time. In the event of involuntary corporate action, the Scheme shall dispose the security not forming part of the underlying index within 7 calendar Days from the date of allotment/ listing.

Rebalancing of deviation due to short term defensive consideration

In the event of the asset allocation falling outside the limits specified in the asset allocation table, the Fund Manager will rebalance the same within 7 calendar days. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. Any alteration in the investment pattern will be for short-term defensive consideration as per Clause 1.14.1.2 of Master Circular of Mutual Fund the intention being at all times to protect the interests of the Unit Holders.

Tracking error/Tracking difference

The Scheme, in general, will hold all the securities that constitute the underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances such tracking error is not expected to exceed 2% p.a.

However in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed the above limits and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. Since the Scheme is an exchange traded fund, it will endeavour that at no point of time the Scheme will deviate from the index. Tracking difference is the difference of returns between the Scheme and the index annualized over 1 year, 3 year, 5 year, 10 year and since the scheme inception period.

B. WHERE WILL THE SCHEME INVEST?

1. Equity and Equity related instruments constituting the Nifty Cement Index in the similar proportion (weightage) as in the Index and endeavour to track the benchmark index including equity derivatives for non-hedging purpose upto 20%.
2. Debt securities and Money Market Instruments
 - Securities created and issued by the Central and State Governments
 - Securities guaranteed by the Central and State Governments
 - Debt securities of domestic Government agencies and statutory bodies
 - Corporate debt
 - Certificate of Deposits (CDs)
 - Commercial Paper (CPs)
 - Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
3. Derivatives including Index Futures, Stock Futures, Index Options, Stock Options etc. and such other derivative instruments permitted under Regulations
4. Units of Mutual Fund
5. Any other instruments as may be permitted by RBI/SEBI under prevailing laws from time to time.

(Detailed definition and applicable regulations/guidelines for each instrument is included in Section II)

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Groww Nifty Cement ETF will be managed passively with investments in stocks in the same proportion as in the Nifty Cement ETF. The investment strategy of the Scheme will be to invest in the securities forming part of Nifty Cement Index in similar weight proportion. The investment strategy would revolve around reducing the tracking error through regular rebalancing of the portfolio, considering the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme. A part of the funds may be invested in debt and money market instruments, to meet the liquidity requirements. The investment strategy shall be in line with the asset allocation.

Though every endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such

opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Portfolio Turnover Policy

Portfolio Turnover measures the volume of trading that occurs in a Scheme’s portfolio during a given time period. The Scheme is an open-ended Exchange Traded Fund and it is expected that there may be a number of subscriptions and repurchases on a daily basis through Stock Exchange(s) or Market Maker and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty Cement Index. However, it will be the endeavour of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark (Total Returns Index):

Nifty Cement Index TRI

The Trustees have adopted Nifty Cement Index TRI as the benchmark index. As per its investment objective, the investment would primarily be in Securities which are constituents of the benchmark index. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time.

All expenses and incomes accrued up to the valuation date shall be considered for computation of NAV. For this purpose, major expenses like management fees and other periodic expenses would be accrued on a day to day basis. The minor expenses and income will be accrued on a periodic basis, provided the nondaily accrual does not affect the NAV calculations by more than 1%.

Any changes in securities and in the number of units be recorded in the books not later than the first valuation date following the date of transaction. If this is not possible given the frequency of the Net Asset Value disclosure, the recording may be delayed upto a period of seven days following the date of the transaction, provided that as a result of the non-recording, the Net Asset Value calculations shall not be affected by more than 1%.

In case the Net Asset Value of a scheme differs by more than 1%, due to non - recording of the transactions, the investors or scheme/s as the case may be, shall be paid the difference in amount as follows:-

- (i) If the investors are allotted units at a price higher than Net Asset Value or are given a price lower than Net Asset Value at the time of sale of their units, they shall be paid the difference in amount by the scheme.
- (ii) If the investors are charged lower Net Asset Value at the time of purchase of their units or are given higher Net Asset Value at the time of sale of their units, asset management company shall pay the difference in amount to the scheme. The asset management company may recover the difference from the investors.

NAV of units under the Scheme shall be calculated as shown below:

NAV (Rs.) =

Market or Fair Value of Scheme's investments	+	Current Assets including Accrued Income	-	Current Liabilities and Provisions including accrued expenses
--	---	---	---	---

No. of Units outstanding under Scheme

The NAV of the Scheme will be calculated upto two decimal places and will be declared on each business day. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and shall be subject to such regulations as may be prescribed by SEBI from time to time.

Illustration:

Assume that the Market or Fair Value of Scheme's investments is Rs. 1,00,00,000; Current asset of the scheme is Rs. 25,00,000; Current Liabilities and Provisions is Rs. 15,00,000 and the No. of Units outstanding under the scheme are 5,00,000. Thus, the NAV will be calculated as:

$$\text{NAV} = \frac{10000000 + 2500000 - 1500000}{500000} = 22.0000$$

Therefore, the NAV of the scheme is Rs. 22.0000

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time. For the detailed

Valuation Policy and the accounting policy of the AMC, please refer the Statement of Additional Information.

For other details such as policies w.r.t computation of NAV, rounding off, investment in overseas securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. All initial issue expenses pertaining to NFO till the date of allotment of unit will be borne by the AMC or trustee or sponsor. No NFO expenses will be charged to the Scheme.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include, inter alia, the Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agent's fee, marketing and selling expense and other permissible expense, as detailed in the table below:

The AMC has estimated that expenses upto 0.90% of the daily net assets of the scheme may be charged as the scheme as Base Expense Ratio. For the actual current expenses being charged, the investor are requested to refer to the website of the Mutual Fund at <https://www.growwmf.in/downloads/expense-ratio>.

The purpose of the below table is to assist the investor in understanding various costs and expenses that an investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available with AMC based on past experience and are subject to change inter-se.

17.	Maximum Base expense ratio (BER) permissible under Regulation 66 (7)(b)	Upto 0.90

Total Expense Ratio (TER): As defined in Regulation 67 of MF Regulations, 2026, Total Expense Ratio (TER) means the ratio of total of all expenses charged to the investors of the scheme to the total asset under management of the scheme and TER includes:

- Base Expense Ratio (BER) as mentioned in above table as per Regulation 66(7)
- Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, shall not exceeding 0.06% of the value of trades in case of cash market transactions and 0.02% of the value of trades in case of derivative market transactions.

Any expense charges towards brokerage in excess of the aforesaid limits shall form part of the BER limit specified under sub-regulation (7) of Regulation 66.

Transaction costs incurred for the purpose of execution of trade mean regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall not form part of the base expense ratio.

All statutory levies will be over and above the base expense ratio limits as defined in regulation 66(7).

All scheme related expenses, including commission paid to distributors, shall be charged to the scheme only within the regulatory limits and shall not be borne by the AMC, its associates, sponsor, trustee or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of clause 11.3 of Master Circular.

Further with regards to the cost of borrowings in terms of Regulation 42, the same shall be adjusted against the portfolio yield of the Scheme and borrowing costs in excess of portfolio yield, if any, shall be borne by the AMC

In accordance with clause 11.2 of the SEBI Master Circular, the AMC shall prominently disclose TER on daily basis on the website www.growwmf.com and on website of AMFI.

The Fund / the AMC shall adopt full trail model of commission in the Scheme, without payment of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route. However, upfronting of trail commission shall be permitted only in case of inflows through Systematic Investment Plans (SIPs) in accordance with applicable regulatory provisions.

\$In terms of paragraph 11.9 of Master Circular of Mutual Fund, the AMC / Mutual Fund shall annually set apart at least 1 basis points (i.e. 0.01%) on daily net assets of the scheme within the maximum limit of base expense ratio as per Regulation

66(7) for investor education, awareness and financial inclusion initiatives.

No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to the investors. However, If the scheme will qualify as per clause 20.5.2 of the Master circular w.r.t. MF lite framework (if applicable), the expense towards investor education & awareness will be 5% of total BER charged to the direct plan of the Scheme, subject to maximum of 0.5 bps of AUM. Out of the total amount transferred to AMFI for investor awareness by AMCs, AMFI shall allocate a minimum of 5 percent for focused investor education and awareness towards promoting passive funds, distinct from AMFI's general investor education initiatives

In view of the individual nature of the implications, each investor is advised to consult his or her own tax advisors/authorised dealers with respect to the specific amount of tax and other implications arising out of his or her participation in the schemes.*

For the actual current expenses being charged to the Scheme, investor investors are advised to refer to the website of the Mutual Fund at: <https://www.growwmf.in/downloads/expense-ratio> .

Any change proposed to the current expense ratio shall be updated on the aforesaid website at least three working days prior to the effective date of such change.

The purpose of the above table is to assist the investor in understanding various costs and expenses that an investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available with AMC based on past experience and are subject to change inter-se.

Notwithstanding anything contained herein, the provisions of the SEBI (Mutual Funds) Regulations, 2026 and the SEBI Master Circular for Mutual Funds, as amended from time to time, shall prevail. In case of any inconsistency or deviation between the provisions stated herein and the applicable Regulations or Master Circular, the provisions of the Regulations and/or Master Circular shall prevail.

C. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.growwmf.in/downloads/fact-sheet>) or may call at 8050180222) or your distributor or write to us at support@growwmf.in.

Type of Load	Load chargeable (as %age of NAV)
Exit	Nil

Investors other than Market Maker/Large investors can redeem units directly with the Fund for less than Creation Unit size at approximately indicative NAV based prices (along with applicable charges and execution variations) during the Ongoing Offer for units without any exit load if:

- Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

Such instances shall be tracked by the AMC on an ongoing basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund. For any change in load structure, AMC will issue an addendum and display it on the website/Investor Service Centres.

The Mutual Fund may charge the load within the stipulated limit of 3% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 97% of the NAV.

The AMC reserves the right to modify/alter the load structure and may decide to charge on the Units with prospective effect, subject to the maximum limits as prescribed under the SEBI (MF) Regulations. At the time of changing the load structure, the AMC shall take the following steps:

- Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all the Groww Mutual Fund's ISCs' and distributors' offices and on the website of the AMC.
- The notice-cum-addendum detailing the changes shall be attached to SIDs and Key Information Memoranda. The addendum will be circulated to all the distributors so that the same can be attached to all SIDs and Key Information Memoranda already in stock.
- The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measures which the mutual fund may feel necessary.

The AMC may change the load from time to time and in case of an exit/repurchase load this may be linked to the period of holding. It may be noted that any such change in the load structure shall be applicable on prospective investment only. The exit load (net off GST, if any, payable in respect of the same) shall be credited to the Scheme of the Fund. The distributors should disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.

I. Introduction

A. Definitions/interpretation

For detailed description please click the link: <https://www.growwmf.in/downloads/sid>

B. Risk factors

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV trading price, yield, total return and/or its ability to meet its objectives.

- 1) The NAV of the units is closely related to the value of stocks that form a part of the benchmark index. The value of this will react to stock market movements and may result in changes in the NAV of units under the scheme. There could also be movements in the scheme's NAV due to changes in interest rates, macro-economic and political developments and over longer periods during market downturns;
- 2) Liquidity Risk: Trading in Groww Nifty Cement ETF may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI, trading in Groww Nifty Cement ETF is not advisable. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE and SEBI circuit filter rules. There can be no assurance that the requirements of the exchange necessary to maintain the listing of the Groww Nifty Cement ETF will continue to be met or will remain unchanged
- 3) Regulatory Risk: Any changes in trading regulations by the stock exchange(s) or SEBI may affect the ability of Market Maker/Large Investors to arbitrage resulting into wider premium/ discount to NAV.
- 4) Tracking error may have an impact on the performance of the scheme. However, GAMC will endeavour to keep the tracking error as low as possible.
- 5) The Scheme is a passively managed scheme and provides exposure to the benchmark and tracking its performance and yield. The Schemes performance may be affected by a general price decline in the stock markets. The Scheme invests in the stocks comprising the index regardless of their investment merit. The Mutual Fund does not attempt to take defensive positions in declining markets.
- 6) As the scheme proposes to invest not less than 95% of the net assets in securities comprising of Nifty Cement Index any deletion of stocks from or addition to –the Index may require sudden and immediate liquidation or acquisition of such stocks at the prevailing market prices irrespective of whether valuation of stocks is attractive enough. This may not always be in the interest of unitholders.
- 7) The performance of the Nifty Cement Index– TRI will have a direct bearing on the performance of the scheme. Hence any composition change by virtue of weightage or stocks selection will have an impact on the scheme.
- 8) Though Groww Nifty Cement ETF will be listed on the stock exchange, there is no assurance that an active secondary market will develop or be maintained.
- 9) Investors may note that even though this is an open-ended scheme, they will have to buy or sell units of the scheme on the stock exchanges where these units are listed for liquidity at the market price, subject to the rules and regulations of the exchange. Buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/ broker, payment of brokerage, securities transactions tax and such other costs.

10) The market price of ETF units, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the unit (or NAV), and (2) demand and supply of units in the market. Sizeable demand or supply of the units in Exchange may lead to market price of the units to quote at premium or discount to NAV. However, since the eligible investors can transact with the AMC for units beyond the creation unit size there should not be a significant variance from the NAV. Hence the price of ETF is less likely to hold significant variance (large premium or discount) from the latest declared NAV all the time.

11) **Capital Gains Impact:** Investors who trade in Groww Nifty Cement ETF may be subject to Long Term Capital Gains or Short Term Capital Gains. Investors are requested to consult their tax / legal consultants before investing in the scheme.

12) The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund depends up on the confirmations to be received from depository(ies) on which the mutual fund has no control.

13) The scheme will attract provisions of take over regulations, if it invests in more than 10% of the paid up capital of a company and therefore may not be able to accept further subscription

Risk associated with Exchange Traded Fund:

a) **Absence of Prior Active Market:** Although the units of ETFs are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.

b) **Lack of Market Liquidity:** Trading in units of ETFs on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the ETF Units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit breaker' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.

c) **Units of Exchange Traded Funds May Trade at Prices Other than NAV:** Units of Exchange Traded Funds may trade above or below their NAV. The NAV of Units of Exchange Traded Funds may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created / redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

d) **Regulatory Risk:** Any changes in trading regulations by the Exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV. Although Groww Nifty Cement ETF is proposed to be listed on Exchange, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on Exchange / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.

e) **Political Risks:** Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in laws and regulations could have an effect on the value of investments. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.

f) **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the Scheme offered under this Scheme Information Document and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day depending on the total “Saleable Underlying Stock” available with the fund.

g) **Redemption Risk:** The Unit Holders may note that even though this is an open ended scheme, the Scheme would ordinarily repurchase Units in Creation Unit size. Thus unit holdings less than the Creation Unit size can normally only be sold through the secondary market unless no quotes are available on the Exchange for 3 trading days consecutively.

h) **Asset Class Risk:** The returns from the types of securities in which a Scheme invests may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under performance in comparison of the general securities markets.

i) **Passive Investments:** As the Scheme is not actively managed, the underlying investments may be affected by a general decline in the Indian markets relating to its Underlying Index. The scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets. Further, the fund manager does not make any judgment about the investment merit nor shall attempt to apply any economic, financial or market analysis.

j) **Tracking Error Risk:** Factors such as the fees and expenses of the Scheme, cash balance, changes to the Underlying assets and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying assets of the scheme. The Scheme's returns may therefore deviate from those of its Underlying assets.

k) Tracking Error of ETFs is likely to be low as compared to a normal index fund. Due to the Creation / Redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying / selling units and the underlying shares is much lower. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, such tracking errors are not expected to exceed 2% per annum. However, this may vary when the markets are very volatile. However, there can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

Risk specific to investing in securities forming part of Nifty Cement Index:- The Scheme will invest atleast 95% of its net assets in Constituents of Nifty Cement Index. The Scheme is sectoral in nature, hence will be affected by the risks associated with the constituents of Nifty Cement Index.

Risks associated with Tracking errors/ difference:

Tracking error means the extent to which the NAV of the fund moves in a manner inconsistent with the movements of the benchmark index on any given day or over any given period of time due to any cause or reason whatsoever including but not limited to expenditure incurred by the scheme, , whole cash not invested at all times as it may keep a portion of funds in cash to meet redemption etc. The tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index and the NAV of the Scheme based on daily past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. However, the Fund will endeavour to limit the tracking error within 2% limits. Tracking difference is the difference of return between the scheme and benchmark annualized over 1 year, 3 year, 5 years, 10 years and since inception period.

Tracking error/ difference could be the result of a variety of factors including but not limited to:

- Delay in the purchase or sale of stocks within the benchmark due to illiquidity in the stocks, circuit filters on the stocks
- Delay in realisation of sale proceeds
- The scheme may buy or sell the stocks comprising the index at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.
- Index providers may either exclude or include new scrips in their periodic review of the stocks that constitute the underlying index. In such situations the scheme will endeavour to rebalance the portfolio in line with the index. But may not be able to mirror the index immediately due to the available investment/reinvestment opportunity.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, etc.
- Execution of large buy / sell orders
- Delay in credit of securities
- Transaction cost and recurring expenses
- Delay in realisation of Unit holders' funds
- Levy of margins by exchanges

SEBI / other Regulatory restrictions on investments and/ or divestments by the scheme / Mutual Fund, which are outside the control of AMC, which may further cause / impact the tracking error.

Risks associated with Equity Markets (i.e. Markets in which Equity Shares or Equity oriented instruments are issued and traded)

• Price fluctuations and Volatility:

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the Realty. Pressure on the exchange rate of the Rupee may also affect security prices.

• Liquidity Risks:

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by GMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information.

Risk associated with Securities Lending:

In the case of securities lending, there is a possibility of recall of securities lent at a higher premium than at which the security is lent or unable to recall due to low volume. Additional risk on securities lending is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

Risks associated with investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of

fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. Other risks include risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

Risks associated with Debt / Money Markets (i.e. Markets in which Interest-bearing Securities or Discounted Instruments are traded)

a) Credit Risk:

Debt Security carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

b) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill. Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof. However, debt securities in the scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

C) Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating. Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. There are certain risks inherent in derivatives. These are:

- a) **Basis Risk** – This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.
- b) **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- c) **Liquidity risk** pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- d) **Credit Risk** – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction. With the phased implementation of physical settlement of stocks in equity derivative segment, though there is an element of risk of stock / funds not being received, the same is mitigated due to settlement guarantee similar to equity cash market segment.
- e) **Interest Rate Risk** – interest rate is one of the variables while valuing derivatives such as futures & options. For example, with everything remaining constant, when interest rates increase, the price of Call option would increase. Thus, fluctuations in interest rates would result in volatility in the valuation of derivatives.
- f) **Model Risk** - A variety of models can be used to value options. Hence, the risk to the fund is that the fund manager buys a particular option using a particular valuation model (on the basis of which the option seems to be fairly priced or cheap) but the market is valuing it using another valuation model and according to which the option may be expensive.
- g) The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter’s gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset

declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.
- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.
- Security comprising of segregated portfolio may realise lower value or may realise zero value.
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risk factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table within a period of 7 Calendar days from the date of said deviation. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme within the stipulated period of 7 days then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications

Sector Specific Risk

1. Investing in mutual funds with exposure to the cement sector involves specific risks, as the industry is highly cyclical and closely linked to infrastructure and construction activity.
2. Cement demand in India is strongly dependent on the project pipeline in the real estate sector and infrastructure spending by both government and private players.
3. Any delays in real estate projects, changes in government policies, or reductions in budgeted infrastructure spending can adversely impact demand and overall sector performance.

4. Input costs such as coal, petcoke, power, and fuel are inherently volatile. A significant rise in these input prices can compress margins and reduce the profitability of cement companies.
5. Excessive competition from domestic as well as international players will have a significant bearing on the sector

C. Risk Control/ Mitigation measures:

The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period which shall not exceed 7 days .

Risk mitigation measures for portfolio volatility and portfolio concentration:

ETF Scheme being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions.

Risk mitigation measures for managing liquidity:

As per data from NSE more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

RISK CONTROL

The investment objective of the scheme is to generate returns, before expenses, that are commensurate with the performance of the Nifty Cement Index - TRI, subject to tracking error. The index is tracked on a regular basis and changes to the constituent's or their weights, if any, are replicated in the underlying portfolio with the purpose of minimizing tracking error.

Debt and Money Market instruments	<ul style="list-style-type: none"> • Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.

	<ul style="list-style-type: none"> • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments thereby mitigating the risk of rating migration generally associated with long-term securities • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	<p>The Scheme may invest in derivative for the purpose of portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.</p>

II. INFORMATION ABOUT THE SCHEME:

A. Where will the scheme invest –

- 1. Equity and Equity Related Instruments:** Equity and Equity related instruments constituting the Nifty Cement Index in the similar proportion (weightage) as in the Index .
- 2. Debt securities and Money Market Instruments:** The Scheme will invest in debt and money market instruments. Debt securities and Money Market Instruments will include but will not be limited to:
 - i.* Securities **created and issued by the** Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.
 - ii.* Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
 - iii.* Debt securities of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
 - iv.* Corporate debt (of both public and private sector undertakings).
 - v.* Certificate of Deposits (CDs)- CD is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is between one year to 3 years from the date of issue. CDs may be issued at a discount to face value.
 - vi.* Commercial Paper (CPs) - CP is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. They are issued at a discount to the face value as may be determined by the issuer. CP is traded in secondary market and can be freely bought and sold before maturity.
 - vii.* Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
 - viii.* Any other instruments/securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations
- 3. Derivatives including Index Futures, Stock Futures, Index Options, Stock Options etc. and such other derivative instruments permitted under Regulations:**

The Scheme may invest in derivative for the purpose of portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in this SID.

4. Mutual Fund Units:

Mutual fund means a fund established in the form of a trust to raise monies through the sale of units to the public or a section of the public under one or more schemes for investing in securities, money market instruments, gold or gold related instruments, silver or silver related instruments, real estate assets and such other assets and instruments as may be specified by the SEBI from time to time.

5. Any other instruments as may be permitted by RBI/SEBI under prevailing laws from time to time.

B. What are the investment restrictions?

The following investment limitations and other restrictions, inter alia, specified in the Regulations and Master circular shall apply to the Scheme:

1. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.

2. The Mutual Fund shall get the securities purchased/transferred in the name of the Mutual Fund on account of the Scheme except in respect of such securities as may be specified by the board from time to time.

3. The Scheme shall not make any investment in:

a) any unlisted security of an associate or group company of the Sponsor; or b) any security issued by way of private placement by any associate or group company of the Sponsor; or c) the listed securities of group companies of the Sponsor in excess of 25% of its net assets except for investments by equity oriented exchange traded funds (ETFs) and Index Funds and subject to such conditions as may be specified by SEBI.

4. No sponsor of a mutual fund, its associate or group company including the asset management company of the fund, through the schemes of the mutual fund or otherwise, individually or collectively, directly or indirectly, have –

a. 10% or more of the share-holding or voting rights in the asset management company or the trustee company of any other mutual fund; or

b. representation on the board of the asset management company or the trustee company of any other mutual fund.

5. The Scheme shall not invest in any Fund of Funds Scheme.

6. All investments by a mutual fund scheme in equity shares, equity related instruments and debt instruments shall only be made provided such securities are listed or to be listed except:

(a) unlisted Government Securities and money market instruments other than commercial papers; and

(b) unlisted non-convertible debentures to the extent and in the manner as specified by the Board.

7. Mutual fund shall not borrow except to meet temporary liquidity needs for the purpose of repurchase or redemption of units or payment of interest or Income Distribution cum Capital Withdrawal payout to the unitholders or for settlement of trades by equity oriented index funds and equity oriented exchange traded funds on account of under execution of sell trades on the stock exchange in the manner as may be specified by the board from time to time. The borrowing specified above shall be subject to –

- a) such borrowing not exceeding twenty per cent of the net assets of the scheme; and
- b) duration of such borrowing not exceeding a period of six months.

The limit of 20% specified above shall not be applicable for intraday borrowing subject to such conditions as may be specified by the board.

The mutual fund may lend and borrow securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board.

- 8. The cumulative gross exposure through equity, derivatives position and other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the scheme.
- 9. The underlying index shall comply with the below restrictions in line with Para 4.3 of SEBI Master Circular:
 - a. The index shall have a minimum of 10 stocks as its constituents.
 - b. For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
 - c. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
 - d. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

The Scheme shall evaluate and ensure compliance to the aforesaid norms at the end of every calendar quarter.

- 10. Investment restrictions relating to investment in debt and money market instruments:

As per Para 13.1 of SEBI Master Circular dated March 20, 2026, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in SEBI Master Circular.

The long-term rating of issuers shall be considered for the money market instruments. However, if there is no long-term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time. Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its Net Assets.

- 11. Pending deployment of funds of the Scheme, the AMC may invest funds of the Scheme in short term deposits of scheduled commercial banks, subject to the following conditions issued by SEBI vide clause 13.7 of SEBI Master Circular:

- i. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- ii. Such short-term deposits shall be held in the name of the Scheme.
- iii. The Scheme shall not park more than 15% of their net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of their net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
- v. The Trustee shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in the Scheme.

vi. The Trustee shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

vii. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

12. A scheme may invest in another scheme, under the same AMC or any other mutual fund provided that the aggregate inter-scheme investments made by all schemes under the same AMC or any other mutual fund shall not exceed 5% of the net assets of the Fund or any other limit as prescribed by the Regulations from time to time. The AMC is not permitted by the Regulations to charge any investment management and advisory services fee on such investments.

Wherever investments are intended to be of a long-term nature, the securities shall be purchased or transferred in the name of the Fund, on account of the Scheme concerned.

13. The Scheme shall not invest in unlisted debt instruments including commercial papers, except (a) Government Securities and (b) other money market instruments which are used by mutual funds for hedging. Provided further, the Scheme may invest in unlisted nonconvertible debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancement or structured obligations) and are rated and secured with coupon payment frequency on monthly basis. Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board.

14. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:

- such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions).
- the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made and
- the Transfer is in conformity with additional safeguards as prescribed by clause 13.19 of SEBI Master Circular dated March 20, 2026

15. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments.

16. Investments in Derivatives shall be in accordance with the guidelines as stated under Para 8.5, 13.15, 13.16 of SEBI Master circular dated March 20, 2026 as may be amended from time to time.

17. In accordance with the Para 13.1(3) of SEBI Master Circular dated March 20, 2026, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:

- All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
- The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument
- However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront,) and are rated and secured with coupon payment frequency on monthly basis.

The Scheme being an exchange traded fund (ETF), investment by the scheme in the equity shares or equity related instruments of any company shall be in accordance with the weightage of the scrips in Nifty Cement ETF.

The AMC / Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

The AMC/Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations. Further, apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund may follow any internal norms vis-à-vis restricting/ limiting exposure to a particular scrip or sector, etc. All investment restrictions shall be applicable at the time of making investment.

Procedure for creation of units in Creation Unit size

Creation of Units in exchange of Portfolio Deposit:

1. The requisite Securities constituting the Portfolio Deposit have to be transferred to the Scheme's Depository Participant account while the Cash Component has to be paid to the Custodian/AMC.
2. On confirmation of the same by the Custodian/AMC, the AMC will create and transfer the equivalent number of Units of the Scheme into the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.

Creation of Units in Cash:

1. Subscription of the scheme Units in Creation Unit Size will be made by payment of requisite amount as determined by the AMC equivalent to the cost incurred towards the purchase of predefined basket of securities that represent the underlying index (i.e. portfolio deposit),
2. Cash Component and transaction handling charges, if any, only by means of payment instruction of Real Time Gross Settlement (RTGS) / National Electronic Funds Transfer (NEFT) or Funds Transfer Letter / Transfer Cheque of a bank where the Scheme has a collection account.
3. The Creation Unit will be subject to transaction handling charges incurred by the Fund/AMC. Such transaction handling charges shall be recoverable from the transacting Market Maker or Large Investor.
4. The portfolio Deposit and/or Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents
5. The investors are requested to note that the Units of the Scheme will be credited into the Investor's Depository Participant account only on receipt of Cash Component and transaction handling charges, if any
6. Creation Unit size' is fixed number of units of the Scheme, which is exchanged for a basket of securities underlying the designated index called the Portfolio Deposit and a Cash Component equal to the value of 143000 Units of the Scheme and/or subscribed in cash equal to the value of said predefined units of the Scheme.
7. Creation Unit size consists of Units of the scheme. Each unit of the scheme will be approximately equal to 143000 units.

8. 'Portfolio Deposit' consists of predefined basket of securities that represent the underlying index as announced by AMC from time to time

Procedure for Redemption in Creation Unit size

1. The requisite number of Units of the Scheme equivalent to the Creation Unit has to be transferred to the Fund's Depository Participant account and the Cash Component to be paid to the AMC/Custodian. On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
2. The Fund allows cash Redemption of the Units of the Scheme in Creation Unit size by Market Maker
3. Such Investors shall make a Redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio Securities on behalf of the Investor. Accordingly, the sale proceeds of portfolio Securities, after adjusting the Cash Component and transaction handling charges will be remitted to the Investor.
4. Redemption proceeds will be sent to Market Makers within 3 Business Days of the date of redemption subject to confirmation with the depository records of the Scheme's DP account.

Note:

1. The Creation Unit size may be changed by the AMC at their discretion subject to SEBI regulations, and the notice of the same shall be published on AMC's website.
2. Transaction handling charges include brokerage, Securities transaction tax, regulatory charges if any, depository participant charges, uploading charges and such other charges that the mutual fund may have to incur in the course of cash subscription/redemption or accepting the Portfolio Deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting Market Maker or Large Investor.
3. The Portfolio Deposit and / or Cash Component for CEMNTGROWW may change from time to time due to change in NAV and due to any other market factors
4. The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying securities.

Example :

Each Creation Unit consists of 100,000 units XYZ ETF tracking XYZ Index. The Creation Unit is made up of 2 components i.e. Portfolio Deposit and Cash Component. The Portfolio Deposit will be determined by the Fund as per the weights of each security in the Underlying Index. The value of this Portfolio Deposit will change due to change in prices during the day. The number of shares of each security that constitute the Portfolio Deposit will remain constant unless there is any corporate action in the Underlying Index or there is a rebalance in the Underlying Index or the fund manager re-align the weights of the securities to reduce the tracking error. The example of the Creation Unit is given below for an hypothetical XYZ Index.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	<p>Not Applicable</p> <p>Units once redeemed will not be reissued.</p>
Restrictions, if any, on the right to freely retain or dispose of units being offered.	<p>In the event of an order being received from any regulatory authority/body, directing attachment of the Units of any investor, redemption of Units will be restricted in due compliance of such order</p> <p>RIGHT TO RESTRICT REDEMPTION AND / OR SUSPEND REDEMPTION OF THE UNITS:</p> <p>The Fund at its sole discretion subject to SEBI regulations reserves the right to restrict Redemption (including switchout) of the Units (including Plan /Option) of the Scheme of the Fund upon occurrence of the below mentioned events for a period not exceeding ten (10) working</p>

	<p>days in any ninety (90) days period subject to approval of the Board of Directors of the AMC and the Trustee. The restriction on Redemption (including switch-out) shall be applicable where the Redemption (including switch-out) request is for a value above Rs. 2,00,000/- (Rupees Two Lakhs). Further, no restriction shall be applicable to the Redemption / switch-out request upto Rs. 2,00,000/- (Rupees Two Lakhs). It is further clarified that, in case of redemption request beyond Rs. 2,00,000/- (Rupees Two Lakhs), no restriction shall be applicable on first Rs. 2,00,000/- (Rupees Two Lakhs). Subject to SEBI regulations the Trustee / AMC reserves the right to restrict Redemption or suspend Redemption of the Units in the Scheme of the Fund on account of circumstances leading to a systemic crisis or event(s) that severely constrict market liquidity or the efficient functioning of the markets. A list of such circumstances under which the restriction on Redemption or suspension of Redemption of the Units in the Scheme of the Fund may be imposed are as follows:</p> <ol style="list-style-type: none"> 1. Liquidity issues- when market at large becomes illiquid affecting almost all securities rather than any issuer specific security; or 2. Market failures / Exchange closures; or 3. Operational issues; or 4. If so directed by SEBI. <p>It is clarified that since the occurrence of the abovementioned eventualities have the ability to impact the overall market and liquidity situation, the same may result in exceptionally large number of Redemption requests being made and in such a situation the indicative timelines (i.e. within 3-4 Business Days) mentioned by the Fund in the scheme offering documents, for processing of requests for Redemption may not be applicable.</p> <p>Please refer to paragraphs on ‘Transfer and Transmission of units, Right to limit Redemption, Suspension of Purchase and/ or Redemption of Units and Pledge of Units’ in the SAI for further details.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>In case of Purchase / Redemption directly with Mutual Fund (By Market Makers and Large Investors):</p> <p>Direct transaction in ETFs through AMCs</p> <p>Direct transaction with AMCs shall be facilitated for investors only for transactions above a specified threshold. In this regard, to begin with any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for Market Makers.</p> <p>All direct transactions in units of ETFs by Market Makers or other eligible investors (as mentioned above) with AMCs shall be at intraday NAV based on the actual execution price of the underlying portfolio.</p> <p>The requirement of “cut-off” timing shall not be applicable for direct transaction with AMCs in ETFs by Market Makers and other eligible investors. For Redemption of units directly with the Mutual Fund (other than Market Makers and Large Investors):</p> <p>For Redemption of units directly with the Mutual Fund (other than Market Makers and Large Investors):</p> <p>Investors can directly approach the AMC for redemption of units of ETF, for transaction of upto INR 25 Cr. without any exit load, in case of the following scenarios:</p> <ol style="list-style-type: none"> i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days. <p>In case of the above scenarios, applications received from investors for redemption up to 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.</p>

	<p>Such instances shall be tracked by the AMC on an ongoing basis and in case any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund.</p> <p>Settlement of Purchase/Sale of Units of the Scheme on NSE</p> <p>Buying/Selling of Units of the Scheme on NSE is just like buying/selling any other normal listed security. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities pay- in day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for ‘Delivery-In’ to his/her/its DP for accepting Units in his/her/its beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/ her/its trading member. The trading member will transfer the Units directly to his/her/ its beneficiary account on receipt of the same from NSE’s Clearing Corporation.</p> <p>An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give ‘Delivery Out’ instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p>
<p>Minimum amount for purchase/redemption/s witches (mention the provisions for ETFs, as may be applicable, for direct subscription/redemption with AMC</p>	<p>1. Ongoing purchases / redemptions directly from the Mutual Fund would be restricted to Market Makers and Large Investors (subject to transactions greater than INR 25 crores or such other amount as may be specified by SEBI from time to time) provided the value of units to be purchased / redeemed is in creation unit size or multiples thereof. The aforesaid limit of Rs.25 crores is not applicable for Market Makers. The Creation Unit size will be 143000 Units.</p> <p>2. Market Makers / Large Investors may exchange Portfolio Deposit / cash equivalent to the portfolio deposit and applicable cash component and transaction handling charges for Purchase / Redemption of Units of the Scheme in ‘Creation Unit’ size or in multiples thereof directly from the Mutual Fund, as defined by the Scheme for that respective Business Day.</p> <p>3. The units are listed on NSE to provide liquidity through secondary market. All categories of Investors may purchase the units through secondary market on any trading day.</p> <p>4. The AMC shall appoint at least two Market Makers, who are members of the Stock Exchanges, for ETFs to provide continuous liquidity on the stock exchange platform by providing two-way quotes in the units of the Scheme during trading hours.</p> <p>5. Subject to SEBI Regulations, The AMC reserves the right to list the units of the scheme on any other exchange, in future.</p> <p>Minimum Redemption Amount:</p> <p>Investors can redeem (sell) Units on a continuous basis on the Stock Exchange on which the Units are listed. On the Stock Exchange(s), the Units of the Scheme can be sold in minimum lot of 1 (one) Unit and in multiples thereof.</p>
